RULE 4. STANDARD PROCEDURES

A. Renewals

1. The company must mail the Coverage Selections Page not less than thirty days prior to policy expiration.
2. The Company may elect to secure payment of a deposit premium.
3. Failure to pay the deposit premium may result in cancellation of the policy. The specific reason for cancellation is non-payment of any required premium.

The Cancellation Notice must also contain the following statement:

“This cancellation will not take effect if the full amount due shown above (including, without limitation, any applicable late payment charges or financing fees) is paid on or prior to the effective date of cancellation.”

B. Non-Renewal

1. No company shall refuse to renew a policy unless written notice is given by the company to the insured, or the producer or broker producing the business, at least forty-five days prior to the expiration of the policy. The notice shall be on a standard form prescribed by the Commissioner of Insurance.
 - a. A notice required to be sent by the company to the insured may be by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service. Unless another company has replaced the insurance, the notice should be electronically transmitted to the Registry of Motor Vehicles not earlier than the policy expiration date. If the insurance and registration are coterminous, it will not be necessary to notify the Registry of Motor Vehicles.
 - b. If the notice is required to be sent by the company to the producer or broker producing the business, such producer or broker shall, within fifteen days of receiving such notice, send a copy to the insured by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service. The producer or broker must notify the company not later than the policy expiration date if the insurance is not replaced so that the company may, in turn, electronically transmit the notice to the Registry of Motor Vehicles. Notice to the company is not required if the insurance and registration are coterminous.

C. New Business

The producer is required to obtain from the applicant for insurance a new business application in all cases except when the producer is transferring a book of business from one company to another and the acquiring company waives this requirement.

If the Coverage is being replaced midterm, the producer must verify that there is no automobile insurance premium owed to the former company or producer.

The producer of record must provide information necessary for the company to transmit data to the Registry of Motor Vehicles for each vehicle insured.

In addition to reporting the necessary information to the company, the producer shall prepare an RMV-3 form, accompanied by the appropriate fee, for processing by the Registry of Motor Vehicles, if an insured requests a corrected registration certificate.

At the same time this transfer information is released to the company, if the business is being transferred from a former producer or former carrier, the producer must issue to the former producer of record, if known, or if not known, to the former carrier, a notice that complies with the requirements of Massachusetts Division of Insurance Bulletin 2008-10. The notice must be signed by the producer of record and certified by affixing the company stamp. This transfer notice is not required when a producer transfers a block of business to the company from a single carrier. In such situations the producer should refer to the former carrier for specific procedures.

D. Transfer of Business from the Company to another Carrier

Upon receipt of a notice of transfer of business from the company to another insurer, which notice complies with the requirements of Massachusetts Division of Insurance Bulletin 2008-10, the company shall:

- a. discontinue coverage as of the date shown on the transfer notice;
- b. compute the return premium, if any, as of the date shown on the transfer notice; and
- c. notify the former producer, if any, of the transfer of coverage.

No notice of cancellation is required.

E. Cancellation (Other Than Transfer of Insurer)

1. Notice of cancellation must be given in a timely manner as required by Massachusetts law on a form approved by the Commissioner and shall include the specific reason(s) for cancellation.
2. The company must electronically notify the Registry of Motor Vehicles immediately upon the intended effective date of cancellation. Refer to Rule 18.

RULE 5. RESIDENCE AND LOCATION

The proper rate schedules and rules are those effective in the city or town where the automobile is principally garaged. Motor vehicles used by salespeople or solicitors, or those with similar duties, requiring the operation of the motor vehicle in more than one rating territory in Massachusetts, shall be assigned to the territory determined by the place of principal garaging, or, if there is no specific city or town of principal garaging, then, by the residential address of the operator, or, if the residential address of the operator cannot be determined, then, by the Massachusetts business address of the operator. No adjustment of the premium shall be made by reason of a change in the place of principal garaging during the policy period unless such change is permanent.

Massachusetts registration is required of non-residents in accordance with reciprocal agreements with the various states as determined by the Registrar of Motor Vehicles.

Any motor vehicle owned by a NON-RESIDENT of Massachusetts for which Massachusetts registration is required, regularly garaged INSIDE the Commonwealth, shall be charged the rate for the territory in which the motor vehicle is principally garaged by such NON-RESIDENT during the period of Massachusetts registration.

RULE 6. OUT -OF-STATE GARAGING

Any motor vehicle, whether owned by a resident or non-resident of Massachusetts for which Massachusetts registration is required, regularly garaged outside of Massachusetts shall be written at limits of liability at least equal to the financial responsibility limits of the state of principal garaging, and shall be charged the rates for vehicles garaged in Territory 9.

RULE 7. POLICY PERIOD

- A. The insured shall have the option to purchase and the insurer shall not refuse to issue an annual motor vehicle policy or bond providing compulsory coverages containing any expiration date as the insured may elect. Insurers may offer such policies or bonds for a period of more than one year but not more than two years or may issue an extension of any existing policy or bond.
- B. [Policies insuring individually owned motorcycles, trailers and other recreational-type vehicles shall, at the option of the insured, be issued for a period of less than one year with policy expiration to be coterminous with the registration. Endorsement M-0103-S, titled Non-Renewal of Policy (Motorcycles, Recreational Vehicles & Trailers), must be issued with the policy.

“Recreational-type vehicle” means a land motor vehicle subject to a motor vehicle registration which expires November 30, or December 31, and is principally used for vacation travel or leisure-time activity. Registration for motorcycles expires December 31. Registration for all other recreational vehicles expires November 30.

The premium for such policies shall be determined by applying the appropriate percentage to the annual rate based on policy inception date as shown in the table below.

If a short term policy is cancelled at the request of the insured later than thirty days from the effective date or later than thirty days from the receipt of the policy, whichever is later, the return premium shall be calculated on a short rate basis using the appropriate short rate table applicable to short term policies found in Rule 18.

RULE 8. CHANGES

- A. All changes requiring adjustments of premium shall be computed pro rata based on the rates in effect on the policy inception date.
- B. **Minimum Premiums**
1. If an outstanding policy is amended and results in a premium increase of less than \$10, such increase will be waived by the company.
 2. If a return premium of less than \$10 results because a coverage is cancelled, or limits of liability are reduced, or a deductible is increased, no refund will be made except at the request of the insured, in which case the actual return premium shall be allowed.

RULE 9. MOTOR VEHICLE REGISTRATION CERTIFICATES

The specific insurance certification requirements under the Massachusetts Compulsory Motor Vehicle Insurance Law are included in Section 1A of Chapter 90, G.L. Motor vehicles not subject to the Compulsory Law do not require insurance certification.

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

Every insurance carrier issuing a motor vehicle liability insurance policy covering a motor vehicle or trailer subject to the Compulsory Law must issue the prescribed Motor Vehicle Registration Certificate indicating a policy or binder has been issued covering such motor vehicle or trailer. No form or Certificate shall be used other than that which is a part of the Massachusetts motor vehicle application for registration.

Certificates shall be executed in the name of the insurance carrier only by individuals authorized to sign in the prescribed Authorization To Sign Motor Vehicle Registration Certificates form filed with the Commissioner of Insurance.

Section 34 B of Chapter 90, G.L. provides penalties for unlawful use of the Motor Vehicle Registration Certificate.

RULE 10. CERTIFIED RISKS - FINANCIAL RESPONSIBILITY LAWS

A. Application

If a certificate of insurance is necessary to comply with the requirements of a financial responsibility Law of any state or province of Canada, the insurance company must issue evidence of financial responsibility upon request of the insured for an additional premium.

In the event that evidence of financial responsibility is required as the result of a motor vehicle violation, a policy affording Damage To Someone Else's Property (Part 4) and Optional Bodily Injury To Others (Part 5) shall be construed to have the necessary limits of liability of the state or province.

In the event that a certificate of insurance for the future is required as the result of a conviction of a motor vehicle violation, the policy limits shall be increased to afford limits of liability not less than that required by the financial responsibility laws of the state or province requesting certification and premium shall be increased accordingly.

The filing of a financial responsibility certificate of insurance as the result of a conviction of a motor vehicle violation requires the following premium adjustments to be added to the otherwise applicable premiums as follows:

1. Owners

- a. If an owner is required to file evidence of financial responsibility for owned automobiles and for the operation of automobiles which he does not own, the additional premium shall be computed by multiplying the applicable percentage in Section B by the sum of the total of Parts 1, 2, 4 and 5 premium for the highest rated automobile owned by the insured and the total non-ownership liability premium, modified in accordance with any applicable rating plan.
- b. In all other cases, the additional premium shall be computed by multiplying the applicable percentage in Section B by the total premium for Parts 1, 2, 4 and 5 for the highest rated automobile owned by the insured, modified in accordance with any applicable rating plan.

2. Non-Owners

- a. If the policy is written to insure a Named Operator or Named Non-Owner, the additional premium shall be computed by multiplying the applicable percentage in Section B by the total bodily injury and property damage premium for the policy.
- b. If coverage is provided under a policy which has been extended to cover a named individual in accordance with the Use of Other Automobiles Rule (Rule 50), the additional premium shall be computed by multiplying the applicable percentage by the (1) bodily injury premium for the highest rated automobile insured under the policy for the rating territory in which the named individual is located, or (2) if there is no automobile at such location, the rates for a Class 30 private passenger automobile for the territory in which the named individual is located.

B. Additional Premium Percentages

1. The otherwise applicable premium will be increased by 50% if the certificate is required for a conviction listed below. This increase is to be applied for the period of time a certificate is required, but in no event for a period in excess of three years following conviction. Thereafter, the otherwise applicable premium will be increased by 5%.
 - a. Driving a motor vehicle while intoxicated or under the influence of marijuana or a narcotic drug.
 - b. Failing to stop and report when involved in an accident.
 - c. Homicide or assault arising out of the operation of a motor vehicle.

2. The otherwise applicable premium will be increased by 25% if the certificate is required for a conviction listed below. This increase is to be applied for the period of time a certificate is required, but in no event for a period in excess of three years following conviction. Thereafter, the otherwise applicable premium will be increased by 5%.
 - a. Driving a motor vehicle at an excess rate of speed where an injury to a person or damage to property actually results therefrom.
 - b. Driving a motor vehicle in a reckless manner where an injury to person or damage to property actually results therefrom.
3. The otherwise applicable premium will be increased by 5% if the certificate is required for any other cause whatsoever.

RULE 11. PREMIUM CALCULATION RULE

The rates shown on the rate pages are for limits of \$20,000/\$40,000 (Parts 1, 3, 5 and 12) or \$5,000 (Part 4 and 6). The charge for increased limits is determined by applying the factors shown in the Increased Limits Tables, as modified by the MAIP Capping Factor (MCF), to the base premium as described below.

The following sequence of steps shall be used in rating the policy for Private Passenger Vehicles (including vehicles listed in rules 32, 41, 45, 47):

1. Calculate the sum of Basic Limits Premium for Part 1, Part 2, Part 3 and Part 4, as well as Part 5 if purchased as described in sections 4-8 below. In this step, both MCF and ILF shall be set to equal 1.00 wherever they appear. In addition, the premium adjustments described in sections 4h-i, 5h-i, 7h-i, and 8h-i are not applied.
2. Calculate the sum of Basic Limits MAIP Rate Premium for Part 1, Part 2, Part 3 and Part 4 as well as Part 5 if purchased, in accordance with the MAIP Rate Plan and rules effective 4/1/2010.
3. Calculate MCF, equal to the Ratio of the Premium calculated in Step #2 to that calculated in Step #1. Set MCF equal to 1.00 if any of the following conditions apply:
 - The calculated ratio, MCF, is greater than 1.00,
 - The insured does not qualify for the Low Frequency Discount in the MAIP Rating Plan
 - The insured does not qualify for the Continuous Coverage Discount in the MAIP Rating Plan
4. For Part 1
 - a. Apply the appropriate Tier Factor as determined in rule 29 to the base rate shown in the Rate Pages section.

 - g. Apply the Class 15 discount factor if appropriate
 - h. For any vehicle on a renewing policy, if the result of step g. exceeds 115% of the Part 1 premium that would have applied to the same risk 12 months prior to the effective date of the policy, reduce the premium to the latter amount.
 - i. For any vehicle on a renewing policy, if the result of step g. is less than 95% of the Part 1 premium that would have applied to the same risk 12 months prior to the effective date of the policy, increase the premium to the latter amount. However, this increase is not made for vehicles to which the MAIP Rate Premium cap has been applied (i.e. where $MCF < 1.0$).
5. For Part 2
 - a. Apply the appropriate Tier Factor as determined in rule 29 to the base rate shown in the Rate Pages section.
 - b. Apply a factor equal to $MCF \times [1 - \text{PIP Deductible Factor}]$ to the previous number.
 - c. Apply the Mileage Band Factor, Driving Experience Group Factor, PIP Symbol Factor, and all Rule 19 discount factors except the Class 15 discount factor to the previous number.
 - d. Apply the appropriate Merit Rating Plan adjustment factor to the previous number.

 - f. If the result of step e. is less than the Part 2 Minimum Premium listed in the Rate Pages section, substitute the Minimum Premium for the result of step e.
 - g. Apply the Class 15 discount factor if appropriate
 - h. For any vehicle on a renewing policy, if the result of step g. exceeds 115% of the Part 2 premium that would have applied to the same risk 12 months prior to the effective date of the policy, reduce the premium to the latter amount.

RULE 17. SUBSTITUTE TRANSPORTATION

The charges for this coverage are on a per vehicle/per year basis for automobiles and motorcycles. Refer to the Miscellaneous Rating Factors page for applicable limits and premiums.

RULE 18. TERMINATION OF INSURANCE

A. Cancellations

The following provisions apply when a policy is cancelled:

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

1. If a policy is cancelled by the company at any time, or by the insured within thirty days of the effective date or within thirty days of the receipt of the policy, whichever is later, the return premium shall be computed pro rata. "Policy" in this instance includes the copy of the coverage selections.

If the policy is cancelled at the request of the insured later than thirty days from the effective date or later than thirty days from the receipt of the policy, whichever is later, the return premium shall be calculated on a short rate basis except that in the following cases the return premium shall be computed pro rata:

- a. If the insured has disposed of the automobile, provided the insured takes out a new policy in the same company on another automobile to become effective within thirty days of the date of cancellation.
 - b. If the insured automobile is repossessed under terms of a financing agreement.
 - c. If an automobile is cancelled from a policy, the policy remaining in force on other automobiles, or if there remains in force in the name of the insured or his spouse, if a resident of the same household, and in the same company, a concurrent automobile policy covering another automobile.
 - d. If the insured enters the military service of the United States of America.
 - e. If the insured deletes or reduces any coverage and the policy remains in effect for other coverage.
2. Theft of Vehicle or Plates
 - a. If the insured automobile is stolen or destroyed (total or constructive total loss) and cancellation is requested by the insured within thirty days following the date the automobile is stolen or destroyed, the return premium for all coverages (including the premium for the coverages under which loss was paid) shall be calculated on a pro rata basis from the day following the date of such loss.
 - b. If the insured registration plates are stolen or destroyed, a lost plate affidavit is to be issued to the Registry of Motor Vehicles canceling only coverage with respect to such plates effective the day following the date of such loss, and the policy shall continue to provide coverage with respect to any replacement plates.
 - c. If the insured files a lost plate affidavit with the Registry of Motor Vehicles, the company may cancel the policy.
 3. Except as otherwise provided by law, no cancellation of the policy, or any of its parts, whether by the company or by the insured, shall be valid unless written notice thereof is given by the party proposing cancellation to the other party at least twenty days in each case prior to the intended effective date thereof. Notice of cancellation sent by the company to the insured and the loss payee at the addresses stated in the policy by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service, shall be a sufficient notice and that an affidavit of any officer, producer, or employee of the company, duly authorized for the purpose that he has so sent such addressed as aforesaid, shall be prima facie evidence of the sending thereof as aforesaid. When the cancellation becomes effective, the company shall electronically transmit the pertinent data to the Registry of Motor Vehicles in the manner prescribed by the Uninsured Motorists System (UMS). The written notice to the insured shall specify the reason or reasons for cancellation. If the reason for cancellation is non-payment of premium, the Notice of Cancellation shall state the amount of deficiency of the premium, fees and other charges owed to the company for all the insurance provided and shall state in substance that the cancellation will not be effective if the insured pays the full amount of such deficiency on or prior to the effective date of the cancellation. If a cancellation of the policy results in a return premium of less than \$5.00, no refund need be made except at the request of the insured, in which case the actual return premium shall be allowed.

No policy in effect prior to a rate level revision shall be endorsed or cancelled and rewritten to take advantage of such a revision or to avoid the application of such a revision.

B. Sale or Transfer of Motor Vehicle, Surrender of Registration Plates, or Filing of a New Certificate

The policy shall terminate upon:

1. The sale or transfer of title by the owner of the motor vehicle or trailer thirty (30) days after the transfer unless the owner has registered a replacement motor vehicle.
2. The surrender to the Registry of Motor Vehicles of the registration plates issued to the owner of the motor vehicle by the Registrar of Motor Vehicles under Chapter 90, with a written statement, in such form as the said Registrar may require, (plates returned receipt) that they are surrendered to cancel the registration of, and the insurance under, the policy for such motor vehicle or trailer.

- The filing with the Registry a certificate of insurance of another company as of the effective date of such certificate.

NOTE: If more than one motor vehicle or trailer is described in the policy, the termination of coverage applies only to the motor vehicle or trailer involved in one of the situations described above.

C. Reinstatement

If a policy has been cancelled by an insurance company, and such policy is later reinstated by the Board of appeal or by the Superior Court or Municipal Court of the City of Boston, the premium charge for the unexpired term of the policy shall be calculated pro rata on the premium applicable to the policy when originally issued.

D. Plates Returned Receipt

In the event that a policy has been terminated by-

- sale or transfer of the motor vehicle, or
- surrender of the registration plates by the owner of the motor vehicle with a written statement in such form as the Registrar may require, that they are surrendered to cancel the registration of, and the insurance under, the policy for such motor vehicle or trailer.

A receipt from the Registry of Motor Vehicles stating that the registration plates have been surrendered must be furnished to the insurance company.

E. Leased Vehicles Under Long Term Contract

In the event a policy of this type is cancelled, the cancellation notice is to be issued in the name of the person or organization to whom the policy was issued. A copy of the cancellation notice must be sent to the owner/registrant also, if it is other than the person to whom the policy was issued.

Upon the intended effective date of cancellation, a notice issued in the name of the actual owner/registrant must be electronically transmitted to the Registry by the company.

F. Instructions For Use of Pro Rata or Short Rate Table

- Express the date of cancellation by year and decimal part of a year by combining the calendar year with the decimal appearing opposite the month and day in the Pro Rata Table, e.g., March 7, 2010, is designated as 2010.181.
- In like manner express the effective date of the policy by year and decimal part of a year and subtract from the cancellation date.
- The difference, in the case of one year policies, represents the percentage of the annual premium which is to be retained by the carrier.

Examples:

Cancellation date September 22, 2010	2010.726
Effective date July 6, 2010	<u>2010.512</u>
	.214

Earned premium for one year policy term will therefore be .214 times the annual premium.

Cancellation date March 7, 2010	2010.181
Effective date December 15, 2010	<u>2010.956</u>
	.225

Earned premium for one year policy term will therefore be .225 times the annual premium.

NOTE: As it is not customary to charge for the extra day (February 29) which occurs one year in every four years, this table shall also be used for each such year.

The following additional provisions apply to policies with policy terms in excess of 12 months:

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

- a. If a policy written for a two year term is cancelled after twelve months, but less than twenty-four months, the earned premium shall be the first twelve months' premium plus pro rata of the annual premium for the second twelve months.
- b. If a policy written for a term in excess of one year, but less than two years is cancelled after the first twelve months, the earned premium shall be computed on a pro rata basis in the following manner.
Example: 18 month policy term
No. of days in policy term 547
No. of days in effect 425
 $425 / 547 = .777$ pro rata factor
.777 x total premium = earned premium

Instructions for Short Rate Table:

1. Determine the pro rata earned premium in accordance with the previous instructions.
2. Add that factor to the following factor:

Policy Period		
Months in Effect		
in	but	
excess of	less than	Factors
0	1	.000
1	2	.055
2	3	.050
3	4	.045
4	5	.040
5	6	.035
6	7	.030
7	8	.025
8	9	.020
9	10	.015
10	11	.010
11	12	.005

3. Apply the factor determined in 2 above to the annual premium to compute the percentage of the annual premium which is to be retained by the company.

Example:

Pro rata premium in example	.214
Short rate factor (policy in effect 2-3 months)	<u>.050</u>
	.264

Earned premium for annual policy cancelled on a short rate basis is .264 times the annual premium.

A. Model Year Defined

The model year of the auto is the year assigned by the auto manufacturer. The model year of rebuilt or structurally altered autos is determined by the model year of the chassis.

B. Rating of Model Years Not Shown on Rate Pages

If the model year of the vehicle is newer than the latest model year in the Rate Pages, use the most current model year from the Rate Pages as the model year for the vehicle and apply a 1.05 factor to the given symbol factor for each year beyond the model year shown in the Rate Pages.

RULE 21. FIRE, THEFT AND COMBINED ADDITIONAL COVERAGE

A. Actual Cash Value

Refer to Miscellaneous Rating Factors section for the applicable factors.

B. Stated Amount

B. Non-Symbolled Vehicles

1. Rating Newly Announced Models with No Symbol

For rating of newly announced models for which no symbol is shown, if the vehicle's model year is 2010 or prior, use the symbol of the latest corresponding model which is shown until announcement is made. If the vehicle is model year 2011 or subsequent, refer to rule 22.B.2 to determine the symbol.

2. Rating Other Vehicles with No Symbol and No Prior Corresponding Model

For rating all 2011 & subsequent model year vehicles or 2010 & prior model year vehicles with no symbol and no prior corresponding model, determine the appropriate symbol based on the FOB List Price or Purchase Price, whichever is higher, from the following table.

For model years 1980 and prior, with values of \$20,001 and above, the auto must be rated on a Stated Amount Basis in accordance with Rule 41. The insurer has the option to waive the requirement of obtaining an appraisal as required under Rule 41.

4. Equipment: Vans and Pick-ups

Except with respect to the coverage provided under Rule 47 for custom furnishings or custom equipment, the cost of any equipment installed in or upon a pick-up or van shall be added to the FOB List Price, Purchase Price or Appraisal Value in determining the applicable symbol.

3. Apply the High Value Model Year / Symbol Relativity to the Symbol 26 premium for the applicable territory, class, and model year, before discounts are applied.

RULE 23. LIABILITY & PIP - MEDICAL PAYMENT SYMBOL RATING

Please refer to the Rate Pages for appropriate liability and PIP - medical payment symbol factors.

A. Liability Symbol Factors

Used in rating Parts 1, 4, and 5 (as referenced in Rule 11).

B. PIP – Medical Payment Symbol Factors

Used in rating Parts 2 and 6 (as referenced in Rule 11).

RULE 24. RESERVED FOR FUTURE USE

RULE 25. VEHICLE SERIES RATING

Vehicle Series Rating (VSR) is a program applied by the Insurance Services Office (ISO) to adjust the Price New Symbols of vehicles to increase or decrease the symbol due to loss experience reflecting crash damage, ease of repair, cost of repair parts, and theft for the particular vehicle, resulting in the Rating Symbol. The Rating Symbol is used to determine a vehicle's premium for Collision, Limited Collision and Comprehensive coverage.

The VSR program reviews the symbol assignments for all vehicle series initially when the model year is introduced and in subsequent years based on loss experience. The symbol for a particular series may be upsymbolled, downsymbols, or may remain the same.

Reassignment of symbols shall be effective with 2006 and subsequent model year vehicles and may only be applied at policy issuance or renewal. A policy shall not be changed mid-term solely due to a change in symbol assignment based on symbol review.

RULE 26. MILEAGE BAND RATING

The premium for Parts 1, 2, 4, 5, 7, 8 and 9 will be adjusted for eligible policyholders based on the ratio of the vehicle's actual mileage for the year prior to the policy effective date to a base mileage for each vehicle's applicable Usage Group, Road Density Region, and DV Group. Refer to the Rate Pages for the Mileage groupings, base mileages, and rating factors.

1. Eligibility

The vehicle must be a private passenger vehicle as defined in Rule 27, except that vehicles classified as Antiques are not eligible.

2. Calculation

The company shall use the odometer readings associated with the Vehicle Inspection System of the Registry of Motor Vehicles to calculate an annualized mileage for the most recent year. The mileage is computed based on the difference between the most recent odometer reading at the time of application and an odometer reading which is at least six months prior to the most recent one.

Additionally, Plymouth Rock may accept other verifications of mileage, submitted with a form provided by the company, including, but not limited to:

- Service receipts showing the service date and mileage
- Visual inspection by the agent

If the vehicle is new to the insured or there is no acceptable means of calculating the vehicle's historical annual mileage, the vehicle's premium is not modified (Mileage Band Factor=1.00). However, if a vehicle replaces a vehicle which is subject to Mileage Band Rating, the annual mileage of the prior vehicle will be attributed to the replacement vehicle.

The ratio of the vehicle's annualized mileage to the mileage base for that vehicle's Usage Group, Road Density Region, and DV Group is then used to determine the appropriate Mileage Relativity Group as defined in the Rate Pages.

 - 2. is not used for the delivery or transportation of goods or materials unless such use is incidental to the insured's business of installing, maintaining or repairing furnishings or equipment.
- C. Gross Vehicle Weight Rating means the value specified by the manufacturer as the loaded weight of a single vehicle.
- D. At the option of the company, an eligible vehicle under this rule whose title has been transferred to a trust may be written under the Massachusetts Automobile Insurance Policy, subject to the following requirements: the grantor of the trust must be an individual or lawfully married individuals residing in the same household, and must be the only insured(s) named in Item 1 of the Coverage Selections Page. All vehicle(s) insured under the policy must be owned by the trust. A vehicle owned by a trust in which the grantor is a partnership or corporation must be written under a commercial auto policy.

If a motor vehicle is leased as described in the foregoing paragraphs, and the lessee is obtaining the insurance, the policy must be issued to the lessee as named insured and Endorsement M-0070-S, "Coverage For Anyone Renting An Auto To You," must be attached to the policy.

RULE 28. PRIVATE PASSENGER CLASSIFICATIONS

A. Operators

All operators of the insured automobiles must be listed on the Coverage Selections Page of the Policy. An operator is a person who has an operator's license, but does not include a person who has only a learner's permit.

1. Assignment of Operators to Automobiles

- a. Each operator listed on the policy shall be assigned to an automobile on the policy based on the operator's class and Merit Rating Plan adjustment (based on the operator's Merit Rating Plan Operator Points) in a manner which produces the highest Combined Premium (the sum of the premium for Parts 1, 2, 4, 5, 7, 8, and 9 for the operator's class and Merit Rating Plan Operator Points) for each automobile. The operators shall be assigned in order of the highest Combined Premium applied to the automobile with highest Base Premium (the automobile's Class 10 premium for Parts 1, 2, 4, 5, 7, 8, and 9) until all operators are assigned to an automobile, except that:
 - i. If an inexperienced operator is the principal operator of a specific automobile, the automobile shall be rated with the appropriate inexperienced principal operator class and Merit Rating Plan Operator Points of that operator; and
 - ii. If an operator age 65 or over is the principal operator of a specific automobile and all operators listed on the policy have been licensed at least six years, the automobile shall be rated as Class 15 and that operator's Merit Rating Plan Operator Points shall be applied. However, if more than one listed operator is age 65 or over, Class 15 and the Merit Rating Plan Operator Points of such operators shall be applied in the manner which produces the highest Combined Premium.
 - iii. If an operator's class and Merit Rating Plan Operator Points are rated on an automobile covered by another Massachusetts private passenger insurance policy, that operator shall be deferred from rating on the policy (except where that operator will be considered as a factor in tiering). If all operators listed on a policy are Deferred Operators, the operator producing the lowest Combined Premium shall be assigned to the automobile(s).
 - iv. If only one operator is listed on the policy, all automobiles on the policy will be assigned the same principal operator classification and Merit Rating Plan Operator Points.

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

v. If each listed operator has been used in rating an automobile on the policy, any remaining automobiles shall be assigned the operator class and Merit Rating Plan Operator Points which produces the lowest Combined Premium, unless the automobile is subject to rating as Class 30.

vi. If more than one operator is listed on the policy, an operator cannot be assigned as the principal operator of more than one automobile on the policy until the other operators (except Deferred Operators) are assigned to an automobile.

b. The assignment of operators to automobiles applies regardless of the number of policies or insurers involved.

c. An inexperienced operator in active military service with the Armed Forces of the United States of America shall not be considered an operator of the automobile unless such individual customarily operates the automobile.

d. Private passenger automobiles owned by clergy are to be classified as class 10 or 15 unless (a) Class 30 is required due to business use other than in connection with church use or (b) an inexperienced operator is listed on the policy.

2. Excluded Operator

If an operator who is a member of the household is to be excluded in rating a particular automobile to produce a lower premium charge, the policyholder must submit a signed statement that such operator does not and will not operate the automobile to be insured. The signed statement must be on the standard form approved by the Commissioner of Insurance, M-0106-S, Operator Exclusion Form.

If any operator excluded as a result of such signed statement operates the automobile, the appropriate operator classification premium for the full policy period may be charged unless a collision or limited collision claim has been denied in accordance with the provisions of the policy because the excluded operator was driving the automobile at the time of the accident.

3. Driving Experience

An operator new to Massachusetts must provide evidence of licensure from the state or country where the operator was previously licensed in order to assign the correct operator classification under this rule. If electronically available, the company will be responsible for obtaining the motor vehicle operator report from the other state or country. If necessary, a certified English translation may be required. No operator shall be assigned to Class 10 unless the operator has six or more years of driving experience.

The classification assigned to the operator is based on the number of years licensed in the other state or country and the completion of driver training, as established by the evidence of licensure. If no evidence of prior licensure is available, the operator may be assigned to Class 20 (inexperienced principal operator, licensed less than three years, no driver training) or Class 21 (inexperienced occasional operator, licensed less than three years, no driver training). The Massachusetts driving experience will be used thereafter to assign the operator classification.

4. Operators

Operators will be classified by the amount of use of an insured automobile:

- Principal Operator – a person who has an operator's license and operates the insured automobile more than any other listed operator as determined by the percentage of use of the automobile.
- Occasional Operator – a person who has an operator's license and operates the insured automobile less than the principal operator.

B. Operator Classes

1. Completion and receipt of a certificate under the Massachusetts Behind The-Wheel Driver Training Program prescribed by the Registrar of Motor Vehicles, or
2. The presenting of satisfactory evidence (certificate signed by school officials) that such operators have successfully completed a driver education course in a state other than Massachusetts meeting the following standards:

Lawfully married individuals having joint ownership and registration of a single motor vehicle which is the only vehicle in the household shall be considered to be an individual for purposes of paragraph 4 of this rule. In such a case the same form of deductible must apply to both of the lawfully married individuals.
4. Either the deductible for the policyholder "alone" or the policyholder and household members is available to a policyholder who has two or more members in his household and there is one motor vehicle in the household.

2. Using the appraised value and the vehicle's model year, refer to Rule 22 to determine the symbol group. Obtain the stated amount rate from the Stated Amount Rate Page in this manual. The Merit Rating Plan adjustment (Merit Rating Plan Operator Points) assigned to an operator on a private passenger automobile insurance policy, if available, shall also be applied to the motorcycle policy, except that an operator with less than five years of motorcycle experience will not be eligible for the Excellent Driver Discount or the Excellent Driver Discount Plus (Merit Rating Plan code 98 or 99) and an operator with less than six years, but more than five years, of motorcycle experience will not be eligible for the Excellent Driver Discount Plus (Merit Rating Plan code 99). RULE 45. AGREED AMOUNT COVERAGE - COMPREHENSIVE

At the option of the policyholder, Comprehensive (Part 9) coverage may be written to provide that in determining the actual cash value of a motor vehicle to be insured, no deduction shall be made to reduce the value of the vehicle to less than the agreed value in the event of loss. "Agreed value," means the value of the vehicle as determined by agreement between the insurer and the policyholder. As a condition to this coverage, the insurer shall be permitted to inspect the vehicle at the time of application. The vehicle shall be rated as follows:

1. An appraisal is to be made to establish the current market value of the vehicle. The cost of appraisal shall be borne by the policyholder.
2. Refer to Rule 22 to determine the appraised value symbol group.
3. Obtain the stated amount rate from the Rate Page Section of the Manual.
4. Apply the rate obtained to each \$100 of valuation.
5. Multiply the premium obtained in (4) above by the factor of 110%.

Endorsement MPY-0034-S titled "Agreed Amount Coverage - Comprehensive" must be issued with the policy.

This rating procedure is not available for antique automobiles which qualify under the Antique Motor Car Rule. The premium is then calculated in accordance with Rule 11.

permanently installed in the auto in locations used by the auto manufacturer for installation of such equipment. However, electronic equipment which is permanently installed in the auto in locations not used by the auto manufacturer for installation of such equipment is covered up to \$1,000. Coverage in excess of \$1,000 is available.

1. Determine the value of the equipment, including installation, in excess of \$1,000
2. The rate charged is a flat rate and is not subject to any discount, other than that applicable to Class 15.
3. Endorsement MPY-0041-S, "Excess Electronic Equipment Coverage," must be issued with the policy.

Refer to the Miscellaneous Rating Factors page for premium charges.

RULE 47. CUSTOMIZED VANS AND PICK-UPS

Coverage for loss or damage to customizing equipment located in or upon a pick-up or van is excluded under the Massachusetts Automobile Insurance Policy. Collision, Limited Collision and Comprehensive coverage for customizing equipment is available for any pick-up or van insured under the policy for Collision (Part 7), Limited Collision (Part 8), or Comprehensive (Part 9) by attaching Endorsement MPY-0037-S, Coverage for Customized Vans and Pick-Ups and adding the value of the customized equipment to the value of the vehicle.

The vehicle should be rated as follows:

A. Symbolled Pick-Up or Van

1. Obtain the rating symbol from the Symbol and Identification Section.
2. Match the rating symbol with the appropriate price table in Rule 22. The value of the vehicle is the higher price displayed in the price range for the corresponding symbol.
3. Develop the revised rating symbol by adding the value of the customized equipment to the value of the vehicle as determined in Item 2.
3. Develop the premium according to the rating symbol determined in Item 3 and the model year indicated in the rate section.

B. Non-Symbolled Pick-Up or Van

1. Determine the FOB List Price or Purchase Price, whichever is higher, and include the value of the customized equipment.
2. Based on the price developed in Item 1, refer to Rule 22 to determine the symbol.
3. Develop the premium according to the symbol determined in Item 2 and the model year indicated in the rate section.

The premium is then calculated in accordance with Rule 11.

RULE 48. ORIGINAL EQUIPMENT MANUFACTURER PARTS COVERAGE

(Attach Endorsement PRAC Auto MA-107-04-08 for this coverage)

Coverage Parts 7, 8, 9

Coverage for payment of an amount necessary to replace damaged crash parts of an auto with parts manufactured or licensed by the original equipment manufacturer is automatically provided for autos with less than 20,000 miles. 5. General

Stickers identifying the particular anti-theft system installed may not be attached to the car unless specifically permitted in these rules.

If two or more qualifying devices are attached to a vehicle, the total discount shall be that applicable to the device meeting standards for the highest discount. If one of the qualifying devices is a Category IV device, the applicable discount shall be calculated as stated in Item 4. Discounts Applicable.

Insurers may require reasonable evidence of installation of any anti-theft device but may not refuse to grant a discount to a qualifying device solely on the grounds that it was installed by the owner of the auto.

Categories Defined

Category I

Devices qualifying in this category receive 5% discounts.

(a) Ignition or Starter Cut-Off Switch in Combination with Flush or Tapered Door Lock Buttons

This device is an ignition cut-off switch (sometimes called a “kill switch”) or a starter cut-off switch which is inserted into the ignition wiring of an auto. The switch is tripped upon leaving the auto and must be switched back in order to start the auto.

The switch must be installed so that it is not visible from the driver’s position when the driver is seated. In addition, the vehicle must contain flush or tapered door lock buttons on all doors.

A sticker may identify the presence of this system.

(b) Ignition or Starter Cut-Off Switches

Such ignition or starter cut-of switches either must be designed so that the wires leading from the switch to the engine compartment are protected by armored tubing or cable, or operate passively.

(c) Non-Passive, Externally-Operated Alarm

This is a non-passive warning alarm which is installed in an auto and can be set to go off if any door, the trunk or the hood is opened without first turning off the alarm by use of a key inserted in a lock mounted on the outside of the auto.

(d) Internally-Operated Alarm Not Meeting Category II or Category III Criteria

This is an alarm system which is activated from within the vehicle but which does not meet all the criteria found in Section (5.3) (a) or Section (5.4)(a); alarm must be triggered by entry of doors, hood or trunk.

(e) Steering Column Armored Collar

This is a device similar to an oversized padlock which clamps on the steering column over the ignition lock and prevents access to it. This device, upon being locked, prevents the vehicle from being started, or if the auto is hot-wired and started, the device prevents it from being steered. No part of the device, when not in operation, is attached to the steering column. A sticker may identify the presence of this device.

(f) Steering Wheel Removal Lock

This device prevents steering movement of the vehicle from a parked position. This is a high security steering wheel lock assembly manufactured of hardened steel components, which allows removal of the steering wheel from the vehicle. The assembly is permanently attached to the vehicle’s steering column and is located between the column and the steering wheel. Operation of the lock is controlled by a high security configured key. Unlocking the assembly will permit removal of the steering wheel from the vehicle. A fitted security plate is then inserted onto the lock assembly in place of the steering wheel and the lock’s security key is then removed. Re-attachment of the steering wheel onto the lock assembly requires use of the security key to first remove the fitted security plate and then to attach the steering wheel. The security key can be removed from the lock assembly only after either the security plate or steering wheel have been locked into place.

Category II

Devices qualifying in this category receive 15% discounts.

(a) Internally-Operated Alarm Systems Not Meeting Category III Criteria

This is an alarm system which is activated from within the auto but which does not meet all the criteria in Section (5.4)(a). The ignition must be automatically cut off, or the starter must be disconnected automatically. The alarm must be triggered by entry of doors, hood or trunk.

(b) Non-Passive Fuel Cut-Off Device

This is a shut-off device which operates to block the fuel line when a switch is tripped or when the device is engaged by a key. The switch to open or shut off the fuel line must be well hidden from view.

(c) Non-Passive Steering Wheel Lock

This device prevents the steering wheel from turning. A steel collar and barrel, into which the shackle of a lock fits, are permanently attached to the steering post. The shackle, made of case-hardened alloy steel, fits over the

steering wheel spoke and into the barrel. A tubular key operates the lock. The collar, barrel and shackle must resist cutting with a file. A sticker may identify the presence of this system.

(d) Armored Cable Hood Lock and Ignition Cut-Off Switch

This system is one which meets all the criteria of Section (5.4)(f)(1) except paragraph (a). Armor must be similar to that used in outdoor telephone booths; it must extend through firewall and be secured so as to prevent retraction.

(e) Window Identification System

A window identification is one in which identification letters and/or numbers are etched by sandblasting, chemical process or other permanent marking into all the windows of the vehicle other than the small vent window.

Provision must be made for immediate telephone identification of the owner of the vehicle any time of day or night.

A sticker may identify the presence of this identification system.

(f) Emergency Handbrake Lock

This device prevents the release of the emergency handbrake. The lock replaces the handbrake grip, and is permanently attached to the handbrake lever. The lock encasement must be all metal construction. The lock is released by entering a preset digital combination. A sticker may identify the presence of this device.

(g) Car Transmission Lock

The device prevents the vehicle from moving from a parked position by locking the gear shift. A steel encased lock is permanently attached to the floor of the vehicle by a steel stand. The shackle, made of case hardened alloy steel, fits around the gear shift and is inserted into the lock. The device must have a high security locking system with at least 50,000 combinations. The lock, shackle and stand must resist cutting and filing.

A sticker may identify this system.

Category III

Devices qualifying in this category receive 20% discounts.

(a) Passive Alarm System - This is an alarm system meeting the following criteria:

- (1) Ignition must be cut off automatically, or starter must be disabled automatically.
- (2) Alarm must be triggered by entry of doors, hood or trunk.
- (3) Hood must not open unless unlocked from inside the vehicle by a key, or by an electronic keyless device.
- (4) Alarm must sound for no more than eight minutes, and upon ceasing to sound, must reset itself.
- (5) Alarm must not emit a pulsating, whooping, or yelping sound which would cause it to be mistaken for the modern police, fire or other emergency vehicle siren.
- (6) Alarm must be installed in the engine compartment so as to be inaccessible without opening the hood.
- (7) The system must be engaged passively by turning the ignition key to the off position. To disarm the system a tubular lock or electronic keyless device must be used. The maximum time delay permitted to disarm the system after re-entry is twenty seconds.

(b) Passive Fuel Cut-Off Device

This fuel cut-off device is engaged by turning the ignition key to the off position. The driver must trip a switch to open the fuel line each time the car is started. This device must meet the following criteria:

- (1) The fuel line must be blocked when the power is off.
- (2) The switch to open the fuel line must be well hidden from view, but accessible to the driver from the driver's seat. In the alternative a tubular key or an electronic keyless device may be used.
- (3) A parking/service attendant override switch may be provided. It must be well hidden from view. It must not be accessible from the passenger compartment; alternatively, if the override switch is accessible from

the passenger compartment, a warning buzzer must sound (or the operator must be distracted in some other way) while the engine is running and the override switch engaged. If the buzzer is disconnected, it must result in disconnection of the entire anti-theft system.

(4) Any under-the-dash wiring installed in connection with this device must blend in color with factory-installed wiring.

(c) Armored Ignition Cut-Off Switch

This device is a kill switch designed to resist tampering. To prevent hot-wiring of the auto, a protective cap is attached to the coil or starter solenoid. Such devices must meet the following criteria:

(1) Armored cable must run from a separate key to the coil, starter solenoid, or other engine component. Such cable must be similar to that used in outdoor telephone booths, collapse when cut, and preclude quick reconnection of the cut wire inside; alternatively, some other effective means of preventing defeat of the system by cutting the armored cable must be employed.

(2) The device must prevent hot-wiring of the car.

(3) A separate lock must be of tubular type and must be installed inside the auto so as to facilitate use by the driver; alternatively, an electronic keyless device may be used in lieu of a lock if it does not take significantly longer to engage the device than it takes to remove a key from a lock, and use of the system is otherwise facilitated.

(d) Passive Multi-Component Cut-Off Switch

This device is a kill switch activated when the ignition key is turned to the off position. It is designed to prevent hot-wiring of the auto. Such device must meet the following criteria:

(1) The primary wire to the ignition coil must be disconnected.

(2) The device must disconnect the starter.

(3) One or more wires to the electronic ignition system, or to the points and condenser must be disconnected and grounded to the chassis.

(4) The wiring must blend with factory-installed wiring, and the disconnecting/grounding wires must be routed to random points in the electrical system away from the components they affect.

(5) The control module, if separate from the electronic locking mechanism, must be hidden in the engine compartment or other part of the car so that it is not easily detectable.

(6) In order to start the car, a lock or electronic device must be used to deactivate the system. The lock must be of tubular type and must be installed inside the auto so as to facilitate use by the driver; alternatively, an electronic keyless device may be used in lieu of a lock if it does not take significantly longer to engage the device than it takes to remove a key from a lock, and use of the system is otherwise facilitated.

(e) Passive Time Delay Ignition System

This is a device which allows the car to start only if the operator waits a prescribed time, which must vary from device to device in a range of three to twenty seconds, before moving the ignition key from "On" to "Start". If the auto does not start, the operator must be required to wait at least ninety seconds before the device can be operated successfully on a subsequent try.

The device must be resistant to tampering; for example, if it is forcibly removed, reconnection of the electrical system must not be possible with a hot-wire device. Alternatively, the device must be installed with a hood lock operated by a tubular key.

(f) Armored Cable or Electrically Operated Hood Lock and Ignition Cut-Off Switch

This is a supplemental hood lock operated from within the auto which also cuts off the ignition when engaged. Such devices must meet the following criteria:

(1) Armored Cable Hood Lock

(a) The hood lock cable must be armored by case hardened solid steel tubing designed to resist cutting; tubing must extend through firewall and be secured so as to prevent retraction. Otherwise, an alarm meeting the criteria of Section (5.3)(a) must be installed.

- (b) The system must be engaged by a push button or other device which facilitates use. The push button or other device must be installed within reach of driver when seated.
- (c) No portion of the hood lock cable may be accessible so that it could be grasped from underneath the car; and, if accessible through the grillwork, armor must extend to the locking mechanism.

(2) Electrically Operated Hood Lock

- (a) The hood lock is electrically operated and functions so that it remains locked even if the wiring operating the hood lock is cut.
- (b) The system must be engaged passively by turning the ignition key to the off position. To disarm the system a separate key or electronic keyless device must be used.
- (c) If the hood lock can be reached through the grillwork or from underneath the car, the hood lock must be shielded or armored so that it cannot be manually operated. The locks controlling the devices must be of tubular type or operate electronically.

(g) Passive, Delayed Ignition Cut-Off System

This electronic system disables the ignition circuit at a preset engine speed such that the engine cannot be restarted or hot-wired. Such device must meet these criteria:

- (1) The ignition must cut off automatically as soon as the engine reaches a speed in the range of 1,500 to 2,000 RPM.
- (2) The system must be automatically armed when the ignition key is turned to the off position.
- (3) A push button or other type of disarm switch must be well hidden from view. The wiring must blend with factory-installed wiring if placed under the dash. In the alternative, a tubular key or an electronic keyless device may be used.
- (4) An alarm or horn shall be actuated at the same time the ignition is disabled.
- (5) If a parking/service attendant switch is provided, a buzzer must sound all the time the engine is running. The switch must be hidden in a remote place.

(h) Passive Ignition Lock Protective system

This is a case hardened steel, protective cap which fits over the ignition lock so as to prevent extraction of the ignition lock cylinder. The cap fastens to a steel collar which fits around the steering post and over the ignition lock. The ignition key fits through a slot in the cap.

A sticker may identify the presence of this system.

(i) High Security Ignition Replacement Lock

This is a high security, case hardened steering column ignition lock, conforming to NHTSA Standard No. 1141, which cannot be removed using a conventional slide hammer or lock puller equipment.

A sticker may identify the presence of this system.

(j) Hydraulic Brake Lock

This is a dash-mounted device which, when activated and pressurized with the brake pedal, maintains hydraulic pressure on the brakes at two or more of a vehicle's wheels so that the vehicle cannot be driven. The device must have a high security locking system with at least 50,000 combinations and a lock which cannot be pulled using a conventional slide hammer or lock puller equipment.

Category IV

Devices qualifying in this category receive 20% discounts.

Vehicle Recovery System

This is an electronic unit installed in a vehicle that is activated after that vehicle is stolen. When activated, the device provides information to law enforcement officials or another public or private entity regarding the vehicle's location.

The system provides for the routine delivery of the information to the appropriate law enforcement organization to assist in the recovery of the vehicle.

Category V

Devices qualifying in this category receive 25% discounts.

Vehicle Recovery System with Unauthorized Movement Notification

This is an electronic unit installed in a vehicle that is activated after that vehicle is moved without authorization. When activated, the device provides information to law enforcement officials or another public or private entity regarding the vehicle's location. The system provides for the routine delivery of the information to the appropriate law enforcement organization to assist in the recovery of the vehicle. Additionally, the device must provide personalized notification to the owner of a vehicle (or his or her authorized user) in the event of a potentially unauthorized movement of the owner's vehicle. Personalized notification shall mean notification delivered directly to the owner or his or her authorized user via automated communication, which is available beyond the proximity of the vehicle itself, to one or more devices designated in advance by the owner or his or her authorized user, such as to the owner's home telephone, mobile phone, electronic mail service, or wireless text messaging service. If maintaining the system in effect requires the payment of a service fee, insureds must provide the insurer reasonable confirmation of the coverage.

RULE 55. PRE-INSURANCE INSPECTION PROGRAM

The Commissioner of Insurance promulgated regulation 211 CMR 94.00, Pre-Insurance Inspection of Private Passenger Motor Vehicles, to be effective July 24, 2009. For specific details about the Program, refer to the regulation.

The provisions of this Rule 55 shall be applied uniformly and without regard to whether the applicable motor vehicle is to be insured under a policy that was written on a voluntary basis or is to be insured under a policy that was assigned to the company by the Massachusetts Automobile Insurance Plan.

Eligibility

Unless specifically exempted or waived, all private passenger motor vehicles and pick-ups or vans having a gross vehicle weight up to 10,000 pounds are required to be inspected by an insurer prior to the issuance of physical damage coverages by the insurer.

Exemptions to Inspection Requirement

An inspection shall not be required if:

1. The motor vehicle is a new, unused motor vehicle from a franchised automobile dealership where the insurer is provided with either: a copy of the bill of sale which contains a full description of the motor vehicle, including all options and accessories; or a copy of the RMV Form 1 provided by the Registry of Motor Vehicles, which establishes the transfer of ownership from the dealer to the customer and a copy of the window sticker or the dealer invoice showing the itemized options and equipment in addition to the total retail price of the vehicle.
2. The applicant has been insured for three years or longer, without interruption, under a motor vehicle liability policy or policies which include(s) physical damage coverage, issued by the insurer to which the application is submitted; or any applicant involuntarily transferred to another insurer due to the applicant's original insurer's withdrawal from the Commonwealth if the applicant otherwise qualifies under this regulation.
3. An inspection is waived by the insurer.
4. Any private passenger motor vehicle not owned by the applicant, which is used by the applicant, with the permission of the owner, as a temporary substitute due to breakdown, repair, servicing, loss or destruction of the applicant's own motor vehicle.
5. A motor vehicle which is leased less than six months, provided the insurer receives the lease or rental agreement containing a description of the leased motor vehicle, including its condition.
6. When requiring an inspection would cause a serious hardship to the insurer or the applicant and such hardship is documented in the applicant's policy record.
7. When the insurer has no inspection facility or authorized representative either in the city or town in which the motor vehicle is principally garaged or within five miles of said city or town.

Waiver of Inspection

An inspection may be waived if:

1. The motor vehicle is ten or more model years older for all policies issued or renewed during the current calendar year.

Example: For policies issued or renewed during calendar year 2005, inspection of all 1995 and older model year vehicles may be waived.
2. A non-owned vehicle is insured under a policy providing physical damage coverage issued by an insurer which has inspected such motor vehicle in accordance with the provisions of this regulation.
3. A producer is transferring a book of business from one insurer to one or more insurers.
4. An individual applicant's coverage is being transferred by an independent insurance producer to a new insurer and said producer provides the new insurer with a copy of the inspection report completed on behalf of the previous insurer, provided the independent producer represents both insurers, and the insured vehicle was physically inspected by the previous insurer. However, if the new insurer does not receive a copy of the inspection report sixty days prior to the first annual date, the insurer must, upon renewal of the physical damage insurance, require an inspection.
5. When a motor vehicle is insured for physical damage on the applicant's expiring Massachusetts Automobile Insurance Policy, or when a copy of a prior Pre-insurance Inspection is provided.
6. When the applicant has been a customer of the producer for at least three years under a Massachusetts Automobile insurance Policy which included physical damage coverage.
7. When the applicant had physical damage coverage on the vehicle on the prior policy term with no lapse in coverage

Deferral of Inspection

An insurer may defer an inspection for ten calendar days (not including legal holidays and Sundays) following the effective date of coverage on new business and on additional or replacement vehicles to an existing policy, if an inspection at the time of the request for coverage would create a serious inconvenience for the applicant.

Whenever an inspection is deferred, the Notice of Mandatory Pre-Insurance Inspection Requirement (Form B) or the Acknowledgment of Requirement for Pre-Insurance Inspection (Form D) must be used in accordance with the Regulation.

If an inspection is not conducted within the ten day deferral period, physical damage coverage is automatically suspended on the day following the ten day deferral period.

Coverage may be reinstated to be effective at the time of inspection or, in accordance with the Regulation, the Notice of Suspension of Physical Damage Coverage (Form C) must be used.

Inspection Procedures

Inspections required or permitted shall be made by a designated authorized representative of the insurer at a time and place reasonably convenient to the applicant.

The inspection shall be recorded on the prescribed Motor Vehicle Pre-Insurance Inspection Report (Form A) and include appropriate photos as required under the Regulation.

The insurer must retain the original report and photographs for three years except as provided by the Regulation.

The insurers shall maintain an up-to-date list of all its authorized representatives and inspection sites.

The following summary is a general overview of the Merit Rating Plan and its impact on underlying rates.

Operator Points/Experience Period

Each listed operator on a policy is assigned an Operator Adjustment Factor based on the operator's driving history record, as per the Merit Rating Board. The Operator Adjustment Factor is the factor applied to the otherwise applicable rate which reflects the number, type, and age of incidents during the Policy Experience Period. The Factor is either the Excellent Driver Factor, awarded to operators with Incident-Free Periods of more than five but less than six years, the Excellent Driver Plus Factor, awarded to operators with Incident-Free Periods of at least six years, or

the factor corresponding to the number of points determined for the driver. The Experience Period is the six year period immediately preceding the effective date of the policy. The operator points will range from 0 to 45. The Merit Rating Board will compute and report to the Insurer the total number of operator points for each listed operator.

Accident Forgiveness

Accidents used in the computation of the Operator Adjustment Factor will not include those that have been forgiven, consistent with Rule 37 – Accident Forgiveness.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator's Policy Experience Period will begin as of the effective date of that policy until the company receives an authorized inquiry response from the Merit Rating Board indicating the operator's driving history record.

If an operator's Motor Vehicle Report (MVR) is electronically available, the company will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVRs obtained from more than one state or country must be combined by the company and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, the company must submit an Merit Rating policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's MVR with motor vehicle violations or at-fault accidents must be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's points.

If an MVR is not electronically available, the operator's Policy Experience Period will begin as of the effective date of the policy until the company receives an authorized inquiry response from the Merit Rating Board with the operator's actual operator points. The operator may obtain an official driving record or a record from a previous insurer and submit it to the company. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to the company. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator's record, the company must submit a Merit Rating policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's record with motor vehicle violations or at-fault accidents must be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's points.

Classification of Operator points

Merit Rating Plan Operator Points are assigned as follows:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

A claim payment for Bodily Injury Liability, Damage to Someone Else's Property, Collision or Limited Collision of at least \$500 and up to \$2,000 constitutes a minor at-fault accident. A claim payment of more than \$2,000 constitutes a major at-fault accident. An "at-fault" accident is one in which the company determines that the listed operator is more than 50% at fault.

Operator points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation or if it occurs in the sixth (oldest) year in the operator's six year Policy Experience Period.

Calculation of Premium Adjustment

The Merit Rating Plan adjustment factor is applied to Compulsory Bodily Injury (Part 1), PIP (Part 2), Property Damage (Part 4), Optional Bodily Injury (Part 5), Collision (Part 7) and Comprehensive (Part 9).

The adjustment factor varies based on the coverages to which it is applied as well as on the operator's years of driving experience and points. The Merit Rating adjustment factors are shown in the Rate Pages section.

Total Merit Rating Plan Operator points are based on the Incident Free Period. When the Incident Free Period is less than or equal to three, the total number of Operator Points applicable to the operator shall be the sum of the operator points identified for each Incident in the Policy Experience Period. When the Incident Free Period is greater than three and the total number of Incidents in the most recent five years of the Policy Experience Period is three or less, the Operator Points applicable to each incident shall be reduced by one and the total number of Operator Points applicable to the Operator shall be the sum of those reduced Operator points. In no event shall the Operator points for any single incident be reduced below zero.

Assignment of Operators to Vehicles

The assignment of operators to vehicles is made in accordance with the provisions of Rule 28.

RULE 57. SURETY BOND RULES AND RATES

1. The rates for Motor Vehicle Surety Bonds shall be 10% of the Statutory (Compulsory) Rates for Motor Vehicle Liability Insurance Policies.
2. No Motor Vehicle Surety Bonds shall be issued unless or until the applicant (owner) has furnished collateral equal to at least 120% of the highest amount of losses incurred in any one year of the most recent five-year experience period. If the experience is not available for the five preceding years, the applicant must satisfy the company that he is able to pay any judgment to the extent of \$40,000 for each motor vehicle to be covered. The minimum premium for a motor vehicle liability bond for Statutory (Compulsory) coverage shall be \$25.
3. The classifications for Motor Vehicle Surety Bonds shall be the same as for Motor Vehicle Liability Insurance Policies.
4. Motor Vehicle Liability Bonds executed on and after January 1, 1971, shall contain, as part of the recitals required by G.L. Chapter 90, Section 34A, the appropriate provisions of St. 1970, Chapter 670, Section 2 and St. 1971, Chapter 978. The term "insurer" as used in these statutes shall include the "obligor" under any Motor Vehicle Liability Bond so executed.

B. Collision and Limited Collision Rating Procedures

1. Determine the Actual Cash Value premium for the latest model year shown in the Rate pages for the vehicle symbol developed from Rule 22 for the appropriate territory, class and deductible. RULE 4. STANDARD PROCEDURES

A. Renewals

1. The company must mail the Coverage Selections Page not less than thirty days prior to policy expiration.
2. The Company may elect to secure payment of a deposit premium.
3. Failure to pay the deposit premium may result in cancellation of the policy. The specific reason for cancellation is non-payment of any required premium.

The Cancellation Notice must also contain the following statement:

“This cancellation will not take effect if the full amount due shown above (including, without limitation, any applicable late payment charges or financing fees) is paid on or prior to the effective date of cancellation.”

B. Non-Renewal

1. No company shall refuse to renew a policy unless written notice is given by the company to the insured, or the producer or broker producing the business, at least forty-five days prior to the expiration of the policy. The notice shall be on a standard form prescribed by the Commissioner of Insurance.
 - a. A notice required to be sent by the company to the insured may be by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service. Unless another company has replaced the insurance, the notice should be electronically transmitted to the Registry of Motor Vehicles not earlier than the policy expiration date. If the insurance and registration are coterminous, it will not be necessary to notify the Registry of Motor Vehicles.
 - b. If the notice is required to be sent by the company to the producer or broker producing the business, such producer or broker shall, within fifteen days of receiving such notice, send a copy to the insured by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service. The producer or broker must notify the company not later than the policy expiration date if the insurance is not replaced so that the company may, in turn, electronically transmit the notice to the Registry of Motor Vehicles. Notice to the company is not required if the insurance and registration are coterminous.

C. New Business

The producer is required to obtain from the applicant for insurance a new business application in all cases except when the producer is transferring a book of business from one company to another and the acquiring company waives this requirement.

If the Coverage is being replaced midterm, the producer must verify that there is no automobile insurance premium owed to the former company or producer.

The producer of record must provide information necessary for the company to transmit data to the Registry of Motor Vehicles for each vehicle insured.

In addition to reporting the necessary information to the company, the producer shall prepare an RMV-3 form, accompanied by the appropriate fee, for processing by the Registry of Motor Vehicles, if an insured requests a corrected registration certificate.

At the same time this transfer information is released to the company, if the business is being transferred from a former producer or former carrier, the producer must issue to the former producer of record, if known, or if not known, to the former carrier, a notice that complies with the requirements of Massachusetts Division of Insurance Bulletin 2008-10. The notice must be signed by the producer of record and certified by affixing the company stamp. This transfer notice is not required when a producer transfers a block of business to the company from a single carrier. In such situations the producer should refer to the former carrier for specific procedures.

D. Transfer of Business from the Company to another Carrier

Upon receipt of a notice of transfer of business from the company to another insurer, which notice complies with the requirements of Massachusetts Division of Insurance Bulletin 2008-10, the company shall:

- a. discontinue coverage as of the date shown on the transfer notice;
- b. compute the return premium, if any, as of the date shown on the transfer notice; and
- c. notify the former producer, if any, of the transfer of coverage.

No notice of cancellation is required.

E. Cancellation (Other Than Transfer of Insurer)

Motor vehicles used by salespeople or solicitors, or those with similar duties, requiring the operation of the motor vehicle in more than one rating territory in Massachusetts, shall be assigned to the territory determined by the place of principal garaging, or, if there is no specific city or town of principal garaging, then, by the residential address of the operator, or, if the residential address of the operator cannot be determined, then, by the Massachusetts business address of the operator. No adjustment of the premium shall be made by reason of a change in the place of principal garaging during the policy period unless such change is permanent.

Massachusetts registration is required of non-residents in accordance with reciprocal agreements with the various states as determined by the Registrar of Motor Vehicles.

Any motor vehicle owned by a NON-RESIDENT of Massachusetts for which Massachusetts registration is required, regularly garaged INSIDE the Commonwealth, shall be charged the rate for the territory in which the motor vehicle is principally garaged by such NON-RESIDENT during the period of Massachusetts registration.

RULE 6. OUT -OF-STATE GARAGING

Any motor vehicle, whether owned by a resident or non-resident of Massachusetts for which Massachusetts registration is required, regularly garaged outside of Massachusetts shall be written at limits of liability at least equal to the financial responsibility limits of the state of principal garaging, and shall be charged the rates for vehicles garaged in Territory 9.

RULE 7. POLICY PERIOD

- A. The insured shall have the option to purchase and the insurer shall not refuse to issue an annual motor vehicle policy or bond providing compulsory coverages containing any expiration date as the insured may elect. Insurers may offer such policies or bonds for a period of more than one year but not more than two years or may issue an extension of any existing policy or bond.
- B. [Policies insuring individually owned motorcycles, trailers and other recreational-type vehicles shall, at the option of the insured, be issued for a period of less than one year with policy expiration to be coterminous with the registration. Endorsement M-0103-S, titled Non-Renewal of Policy (Motorcycles, Recreational Vehicles & Trailers), must be issued with the policy.

“Recreational-type vehicle” means a land motor vehicle subject to a motor vehicle registration which expires November 30, or December 31, and is principally used for vacation travel or leisure-time activity. Registration for motorcycles expires December 31. Registration for all other recreational vehicles expires November 30.

The premium for such policies shall be determined by applying the appropriate percentage to the annual rate based on policy inception date as shown in the table below.

If a short term policy is cancelled at the request of the insured later than thirty days from the effective date or later than thirty days from the receipt of the policy, whichever is later, the return premium shall be calculated on a short rate basis using the appropriate short rate table applicable to short term policies found in Rule 18.

- B. **Minimum Premiums**
 1. If an outstanding policy is amended and results in a premium increase of less than \$10, such increase will be waived by the company.
 2. If a return premium of less than \$10 results because a coverage is cancelled, or limits of liability are reduced, or a deductible is increased, no refund will be made except at the request of the insured, in which case the actual return premium shall be allowed.

RULE 9. MOTOR VEHICLE REGISTRATION CERTIFICATES

The specific insurance certification requirements under the Massachusetts Compulsory Motor Vehicle Insurance Law are included in Section 1A of Chapter 90, G.L. Motor vehicles not subject to the Compulsory Law do not require insurance certification.

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

Every insurance carrier issuing a motor vehicle liability insurance policy covering a motor vehicle or trailer subject to the Compulsory Law must issue the prescribed Motor Vehicle Registration Certificate indicating a policy or binder has been issued covering such motor vehicle or trailer. No form or Certificate shall be used other than that which is a part of the Massachusetts motor vehicle application for registration.

Certificates shall be executed in the name of the insurance carrier only by individuals authorized to sign in the prescribed Authorization To Sign Motor Vehicle Registration Certificates form filed with the Commissioner of Insurance.

Section 34 B of Chapter 90, G.L. provides penalties for unlawful use of the Motor Vehicle Registration Certificate.

RULE 10. CERTIFIED RISKS - FINANCIAL RESPONSIBILITY LAWS

A. Application

If a certificate of insurance is necessary to comply with the requirements of a financial responsibility Law of any state or province of Canada, the insurance company must issue evidence of financial responsibility upon request of the insured for an additional premium.

In the event that evidence of financial responsibility is required as the result of a motor vehicle violation, a policy affording Damage To Someone Else's Property (Part 4) and Optional Bodily Injury To Others (Part 5) shall be construed to have the necessary limits of liability of the state or province.

In the event that a certificate of insurance for the future is required as the result of a conviction of a motor vehicle violation, the policy limits shall be increased to afford limits of liability not less than that required by the financial responsibility laws of the state or province requesting certification and premium shall be increased accordingly.

The filing of a financial responsibility certificate of insurance as the result of a conviction of a motor vehicle violation requires the following premium adjustments to be added to the otherwise applicable premiums as follows:

1. Owners

- a. If an owner is required to file evidence of financial responsibility for owned automobiles and for the operation of automobiles which he does not own, the additional premium shall be computed by multiplying the applicable percentage in Section B by the sum of the total of Parts 1, 2, 4 and 5 premium for the highest rated automobile owned by the insured and the total non-ownership liability premium, modified in accordance with any applicable rating plan.
- b. In all other cases, the additional premium shall be computed by multiplying the applicable percentage in Section B by the total premium for Parts 1, 2, 4 and 5 for the highest rated automobile owned by the insured, modified in accordance with any applicable rating plan.

2. Non-Owners

- a. If the policy is written to insure a Named Operator or Named Non-Owner, the additional premium shall be computed by multiplying the applicable percentage in Section B by the total bodily injury and property damage premium for the policy.
- b. If coverage is provided under a policy which has been extended to cover a named individual in accordance with the Use of Other Automobiles Rule (Rule 50), the additional premium shall be computed by multiplying the applicable percentage by the (1) bodily injury premium for the highest rated automobile insured under the policy for the rating territory in which the named individual is located, or (2) if there is no automobile at such location, the rates for a Class 30 private passenger automobile for the territory in which the named individual is located.

B. Additional Premium Percentages

1. The otherwise applicable premium will be increased by 50% if the certificate is required for a conviction listed below. This increase is to be applied for the period of time a certificate is required, but in no event for a period in excess of three years following conviction. Thereafter, the otherwise applicable premium will be increased by 5%.
 - a. Driving a motor vehicle while intoxicated or under the influence of marijuana or a narcotic drug.
 - b. Failing to stop and report when involved in an accident.
 - c. Homicide or assault arising out of the operation of a motor vehicle.

2. The otherwise applicable premium will be increased by 25% if the certificate is required for a conviction listed below. This increase is to be applied for the period of time a certificate is required, but in no event for a period in excess of three years following conviction. Thereafter, the otherwise applicable premium will be increased by 5%.
 - a. Driving a motor vehicle at an excess rate of speed where an injury to a person or damage to property actually results therefrom.
 - b. Driving a motor vehicle in a reckless manner where an injury to person or damage to property actually results therefrom.
3. The otherwise applicable premium will be increased by 5% if the certificate is required for any other cause whatsoever.

RULE 11. PREMIUM CALCULATION RULE

If this policy has never had this or any deductible dollars endorsement, **your** earned credit is \$50 as of the effective date of this endorsement.

Subsequent Terms

If this policy previously had this or any deductible dollars endorsement, **your** earned credit is shown on the Coverage Selections Page. **Your** earned credit includes any credit that this policy earned in prior terms that **you** did not use or lose. When this policy term expires, **you** will earn a \$50 credit if **you** have not had a covered **collision** claim during the twelve months ending on the Date of Issue of the original Coverage Selections Page for this policy term and have kept this endorsement on **your** policy. The \$50 credit will be added to **your** other earned credits, if any.

B. Losing Credits

You must keep this endorsement on **your** policy at all times to maintain **your** credits. **You** will forfeit any previously earned credits if and when **you** no longer have this endorsement on this policy.

C. Using Credits

We will only apply **your** earned credit if **you** have a covered **collision** claim during the term of this policy under Collision (Part 7) or Limited Collision (Part 8). We will do so only if the amount of **your** loss exceeds the amount of **your collision** deductible (as shown on the Coverage Selections Page). **We** will apply up to \$250 of **your** earned credit to reduce and offset the amount that **you** would otherwise be required to pay toward satisfying **your collision** deductible. **We** will subtract from **your** earned credit the amount that **you** use to satisfy **your** deductible. **Our** reasonable, good faith determination of the amount of **your** earned credit and how and when it may be used to satisfy **your** deductible shall be final and binding.

Refer to Miscellaneous Rating Factors page for applicable charge.

The Deductible Dollars endorsement is available to policies with original effective dates prior to 2/1/2011. (Attach Endorsement PRAC MA-103-07-10 to eligible policies).

A. Earning Credits

The earned credit under the policy is shown on the Coverage Selections Page. The earned credit includes credits earned during prior policy terms. If the policy did not earn a credit for prior policy terms, the earned credit for the policy is \$0.00.

Upon renewal, the policy will earn a \$50 credit on the renewal policy's effective date, but only if during the term of the policy the policyholder has continuously maintained Collision or Limited Collision coverage on at least one auto listed on the Coverage Selections Page. This \$50 credit will be added to any credits earned and not used for prior policy terms.

B. Losing Credits

The policy credit will be reduced to \$0.00 at any time that the policy does not have at least one auto listed on the Coverage Selections Page with Collision or Limited Collision coverage.

C. Using Credits

We will use the earned credit if a covered collision claim occurs during the term of the policy under Collision or Limited Collision, but only if the amount of the claim equals or exceeds the amount of the deductible (as shown on the Coverage Selections Page). We will use the earned credit (up to a maximum of \$250) to reduce the amount that the policyholder would otherwise be required to pay toward satisfying the deductible. We will subtract from the earned credit the amount that we used to satisfy the deductible.

D. Unused Credits

Any unused earned credit on the policy at the end of the policy term may be rolled over and added to the earned credit next year, if the policyholder renews the policy.

E. For customers whose expiring policy has Disappearing Deductible Endorsement PRAC Auto MA-103-04-08

At renewal, Endorsement PRAC Auto MA-103-04-08 will be replaced with Deductible Dollars endorsement PRAC MA-103-07-10. Policyholders will receive renewal credits in accordance with the endorsement on their expiring policy, and any existing credit balance will be honored if they maintain collision or limited collision on at least one vehicle.

RULE 17. SUBSTITUTE TRANSPORTATION

The charges for this coverage are on a per vehicle/per year basis for automobiles and motorcycles. Refer to the Miscellaneous Rating Factors page for applicable limits and premiums.

RULE 18. TERMINATION OF INSURANCE

A. Cancellations

The following provisions apply when a policy is cancelled:

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

1. If a policy is cancelled by the company at any time, or by the insured within thirty days of the effective date or within thirty days of the receipt of the policy, whichever is later, the return premium shall be computed pro rata. "Policy" in this instance includes the copy of the coverage selections.

If the policy is cancelled at the request of the insured later than thirty days from the effective date or later than thirty days from the receipt of the policy, whichever is later, the return premium shall be calculated on a short rate basis except that in the following cases the return premium shall be computed pro rata:

- a. If the insured has disposed of the automobile, provided the insured takes out a new policy in the same company on another automobile to become effective within thirty days of the date of cancellation.
 - b. If the insured automobile is repossessed under terms of a financing agreement.
 - c. If an automobile is cancelled from a policy, the policy remaining in force on other automobiles, or if there remains in force in the name of the insured or his spouse, if a resident of the same household, and in the same company, a concurrent automobile policy covering another automobile.
 - d. If the insured enters the military service of the United States of America.
 - e. If the insured deletes or reduces any coverage and the policy remains in effect for other coverage.
2. Theft of Vehicle or Plates
 - a. If the insured automobile is stolen or destroyed (total or constructive total loss) and cancellation is requested by the insured within thirty days following the date the automobile is stolen or destroyed, the return premium for all coverages (including the premium for the coverages under which loss was paid) shall be calculated on a pro rata basis from the day following the date of such loss.
 - b. If the insured registration plates are stolen or destroyed, a lost plate affidavit is to be issued to the Registry of Motor Vehicles canceling only coverage with respect to such plates effective the day following the date of such loss, and the policy shall continue to provide coverage with respect to any replacement plates.
 - c. If the insured files a lost plate affidavit with the Registry of Motor Vehicles, the company may cancel the policy.
 3. Except as otherwise provided by law, no cancellation of the policy, or any of its parts, whether by the company or by the insured, shall be valid unless written notice thereof is given by the party proposing cancellation to the other party at least twenty days in each case prior to the intended effective date thereof. Notice of cancellation sent by the company to the insured and the loss payee at the addresses stated in the policy by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service, shall be a sufficient notice and that an affidavit of any officer, producer, or employee of the company, duly authorized for the purpose that he has so sent such addressed as aforesaid, shall be prima facie evidence of the sending thereof as aforesaid. When the cancellation becomes effective, the company shall electronically transmit the pertinent data to the Registry of Motor Vehicles in the manner prescribed by the Uninsured Motorists System (UMS). The written notice to the insured shall specify the reason or reasons for cancellation. If the reason for cancellation is non-payment of premium, the Notice of Cancellation shall state the amount of deficiency of the premium, fees and other charges owed to the company for all the insurance provided and shall state in substance that the cancellation will not be effective if the insured pays the full amount of such deficiency on or prior to the effective date of the cancellation. If a cancellation of the policy results in a return premium of less than \$5.00, no refund need be made except at the request of the insured, in which case the actual return premium shall be allowed.

No policy in effect prior to a rate level revision shall be endorsed or cancelled and rewritten to take advantage of such a revision or to avoid the application of such a revision.

B. Sale or Transfer of Motor Vehicle, Surrender of Registration Plates, or Filing of a New Certificate

The policy shall terminate upon:

1. The sale or transfer of title by the owner of the motor vehicle or trailer thirty (30) days after the transfer unless the owner has registered a replacement motor vehicle.
2. The surrender to the Registry of Motor Vehicles of the registration plates issued to the owner of the motor vehicle by the Registrar of Motor Vehicles under Chapter 90, with a written statement, in such form as the said Registrar may require, (plates returned receipt) that they are surrendered to cancel the registration of, and the insurance under, the policy for such motor vehicle or trailer.

3. The filing with the Registry a certificate of insurance of another company as of the effective date of such certificate.

NOTE: If more than one motor vehicle or trailer is described in the policy, the termination of coverage applies only to the motor vehicle or trailer involved in one of the situations described above.

C. Reinstatement

If a policy has been cancelled by an insurance company, and such policy is later reinstated by the Board of appeal or by the Superior Court or Municipal Court of the City of Boston, the premium charge for the unexpired term of the policy shall be calculated pro rata on the premium applicable to the policy when originally issued.

D. Plates Returned Receipt

In the event that a policy has been terminated by-

- a. sale or transfer of the motor vehicle, or
- b. surrender of the registration plates by the owner of the motor vehicle with a written statement in such form as the Registrar may require, that they are surrendered to cancel the registration of, and the insurance under, the policy for such motor vehicle or trailer.

A receipt from the Registry of Motor Vehicles stating that the registration plates have been surrendered must be furnished to the insurance company.

E. Leased Vehicles Under Long Term Contract

In the event a policy of this type is cancelled, the cancellation notice is to be issued in the name of the person or organization to whom the policy was issued. A copy of the cancellation notice must be sent to the owner/registrant also, if it is other than the person to whom the policy was issued.

Upon the intended effective date of cancellation, a notice issued in the name of the actual owner/registrant must be electronically transmitted to the Registry by the company.

F. Instructions For Use of Pro Rata or Short Rate Table

1. Express the date of cancellation by year and decimal part of a year by combining the calendar year with the decimal appearing opposite the month and day in the Pro Rata Table, e.g., March 7, 2010, is designated as 2010.181.
2. In like manner express the effective date of the policy by year and decimal part of a year and subtract from the cancellation date.
3. The difference, in the case of one year policies, represents the percentage of the annual premium which is to be retained by the carrier.

Examples:

Cancellation date September 22, 2010	2010.726
Effective date July 6, 2010	<u>2010.512</u>
	.214

Earned premium for one year policy term will therefore be .214 times the annual premium.

Cancellation date March 7, 2010	2010.181
Effective date December 15, 2010	<u>2010.956</u>
	.225

Earned premium for one year policy term will therefore be .225 times the annual premium.

NOTE: As it is not customary to charge for the extra day (February 29) which occurs one year in every four years, this table shall also be used for each such year.

The following additional provisions apply to policies with policy terms in excess of 12 months:

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

- a. If a policy written for a two year term is cancelled after twelve months, but less than twenty-four months, the earned premium shall be the first twelve months' premium plus pro rata of the annual premium for the second twelve months.
- b. If a policy written for a term in excess of one year, but less than two years is cancelled after the first twelve months, the earned premium shall be computed on a pro rata basis in the following manner.
Example: 18 month policy term
No. of days in policy term 547
No. of days in effect 425
 $425 / 547 = .777$ pro rata factor
.777 x total premium = earned premium

Instructions for Short Rate Table:

- Determine the pro rata earned premium in accordance with the previous instructions.
- Add that factor to the following factor:

Policy Period Months in Effect			Factors
in excess of	but less than		
0	1	.000	
1	2	.055	
2	3	.050	
3	4	.045	
4	5	.040	
5	6	.035	
6	7	.030	
7	8	.025	
8	9	.020	
9	10	.015	
10	11	.010	
11	12	.005	

- Apply the factor determined in 2 above to the annual premium to compute the percentage of the annual premium which is to be retained by the company.

Example:

Pro rata premium in example .214
Short rate factor (policy in effect 2-3 months) .050
 .264

Earned premium for annual policy cancelled on a short rate basis is .264 times the annual premium.

RULE 20. MODEL YEAR RATING

Please refer to the Rate Pages for appropriate model year and symbol factors.

A. Model Year Defined

The model year of an auto is used in rating physical damage coverage on an actual cash value basis.

The model year of the auto is the year assigned by the auto manufacturer. The model year of rebuilt or structurally altered autos is determined by the model year of the chassis.

B. Rating of Model Years Not Shown on Rate Pages

If the model year of the vehicle is newer than the latest model year in the Rate Pages, use the most current model year from the Rate Pages as the model year for the vehicle and apply a 1.05 factor to the given symbol factor for each year beyond the model year shown in the Rate Pages.

RULE 21. FIRE, THEFT AND COMBINED ADDITIONAL COVERAGE

A. Actual Cash Value

Refer to Miscellaneous Rating Factors section for the applicable factors.

B. Stated Amount

Refer to the Rate Section for any specified peril.

RULE 22. SYMBOL ASSIGNMENT AND RATING

Apply appropriate symbol factor as determined from Model/Year Symbol factor pages for vehicles with symbols 1-26 and Rule 22C for vehicles with symbol 27.

A. Vehicles with Model Year 2011 & Subsequent

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

If the vehicle is model year 2011 or subsequent, determine the symbol using the procedure detailed under rule 22.B.2 rather than using the assigned symbol.

B. Non-Symbolled Vehicles

1. Rating Newly Announced Models with No Symbol

For rating of newly announced models for which no symbol is shown, if the vehicle's model year is 2010 or prior, use the symbol of the latest corresponding model which is shown until announcement is made. If the vehicle is model year 2011 or subsequent, refer to rule 22.B.2 to determine the symbol.

2. Rating Other Vehicles with No Symbol and No Prior Corresponding Model

For rating all 2011 & subsequent model year vehicles or 2010 & prior model year vehicles with no symbol and no prior corresponding model, determine the appropriate symbol based on the FOB List Price or Purchase Price, whichever is higher, from the following table.

3. Stated or Agreed Amount

If an automobile is appraised for stated or agreed amount coverage, the appraised value must be used to determine the symbol.

For model years 1980 and prior, with values of \$20,001 and above, the auto must be rated on a Stated Amount Basis in accordance with Rule 41. The insurer has the option to waive the requirement of obtaining an appraisal as required under Rule 41.

4. Equipment: Vans and Pick-ups

Except with respect to the coverage provided under Rule 47 for custom furnishings or custom equipment, the cost of any equipment installed in or upon a pick-up or van shall be added to the FOB List Price, Purchase Price or Appraisal Value in determining the applicable symbol.

C. Rating Vehicles with an FOB List Price or Purchase Price above \$80,000

For all model years, to determine the actual cash value premium for vehicle symbol 27 as follows:

1. Start with a base factor of 1.00
2. Calculate the High-Value Model Year / Symbol Relativity by increasing the base factor by +.15 for each \$10,000 or portion of \$10,000 above \$80,000 of the FOB List Price or Purchase Price, whichever is higher.

3. Apply the High Value Model Year / Symbol Relativity to the Symbol 26 premium for the applicable territory, class, and model year, before discounts are applied.

RULE 23. LIABILITY & PIP - MEDICAL PAYMENT SYMBOL RATING

Please refer to the Rate Pages for appropriate liability and PIP - medical payment symbol factors.

A. Liability Symbol Factors

Used in rating Parts 1, 4, and 5 (as referenced in Rule 11).

B. PIP – Medical Payment Symbol Factors

Used in rating Parts 2 and 6 (as referenced in Rule 11).

RULE 24. RESERVED FOR FUTURE USE

RULE 25. VEHICLE SERIES RATING

Vehicle Series Rating (VSR) is a program applied by the Insurance Services Office (ISO) to adjust the Price New Symbols of vehicles to increase or decrease the symbol due to loss experience reflecting crash damage, ease of repair, cost of repair parts, and theft for the particular vehicle, resulting in the Rating Symbol. The Rating Symbol is used to determine a vehicle's premium for Collision, Limited Collision and Comprehensive coverage.

The VSR program reviews the symbol assignments for all vehicle series initially when the model year is introduced and in subsequent years based on loss experience. The symbol for a particular series may be upsymbolled, downsymbols, or may remain the same.

Reassignment of symbols shall be effective with 2006 and subsequent model year vehicles and may only be applied at policy issuance or renewal. A policy shall not be changed mid-term solely due to a change in symbol assignment based on symbol review.

RULE 26. MILEAGE BAND RATING

The premium for Parts 1, 2, 4, 5, 7, 8 and 9 will be adjusted for eligible policyholders based on the ratio of the vehicle's actual mileage for the year prior to the policy effective date to a base mileage for each vehicle's applicable Usage Group, Road Density Region, and DV Group. Refer to the Rate Pages for the Mileage groupings, base mileages, and rating factors.

1. Eligibility

The vehicle must be a private passenger vehicle as defined in Rule 27, except that vehicles classified as Antiques are not eligible.

2. Calculation

The company shall use the odometer readings associated with the Vehicle Inspection System of the Registry of Motor Vehicles to calculate an annualized mileage for the most recent year. The mileage is computed based on the difference between the most recent odometer reading at the time of application and an odometer reading which is at least six months prior to the most recent one.

Additionally, Plymouth Rock may accept other verifications of mileage, submitted with a form provided by the company, including, but not limited to:

- Service receipts showing the service date and mileage
- Visual inspection by the agent

If the vehicle is new to the insured or there is no acceptable means of calculating the vehicle's historical annual mileage, the vehicle's premium is not modified (Mileage Band Factor=1.00). However, if a vehicle replaces a vehicle which is subject to Mileage Band Rating, the annual mileage of the prior vehicle will be attributed to the replacement vehicle.

The ratio of the vehicle's annualized mileage to the mileage base for that vehicle's Usage Group, Road Density Region, and DV Group is then used to determine the appropriate Mileage Relativity Group as defined in the Rate Pages.

SECTION II - PRIVATE PASSENGER AUTOMOBILES

RULE 27. PRIVATE PASSENGER DEFINITION

- A. A motor vehicle of the private passenger or station wagon type that is owned or leased under contract for a continuous period of at least twelve months by one or more individuals, excluding (1) partnerships, (2) corporations, (3) unincorporated business associations, and (4) other legal business entities with a federal employer identification number, and is not used as a public or livery conveyance nor rented to others.
- B. A motor vehicle that is a pick-up or van, that is owned or leased under contract for a continuous period of at least 12 months by one or more individuals, excluding (1) partnerships, (2) corporations, (3) unincorporated business associations, and other legal business entities with a federal employer identification number, and
 1. has a gross vehicle weight rating of less than 10,000 pounds or has a rating symbol assigned to it by the Insurance Services Office (ISO), and
 2. is not used for the delivery or transportation of goods or materials unless such use is incidental to the insured's business of installing, maintaining or repairing furnishings or equipment.
- C. Gross Vehicle Weight Rating means the value specified by the manufacturer as the loaded weight of a single vehicle.
- D. At the option of the company, an eligible vehicle under this rule whose title has been transferred to a trust may be written under the Massachusetts Automobile Insurance Policy, subject to the following requirements: the grantor of the trust must be an individual or lawfully married individuals residing in the same household, and must be the only insured(s) named in Item 1 of the Coverage Selections Page. All vehicle(s) insured under the policy must be owned by the trust. A vehicle owned by a trust in which the grantor is a partnership or corporation must be written under a commercial auto policy.

If a motor vehicle is leased as described in the foregoing paragraphs, and the lessee is obtaining the insurance, the policy must be issued to the lessee as named insured and Endorsement M-0070-S, "Coverage For Anyone Renting An Auto To You," must be attached to the policy.

RULE 28. PRIVATE PASSENGER CLASSIFICATIONS

A. Operators

All operators of the insured automobiles must be listed on the Coverage Selections Page of the Policy. An operator is a person who has an operator's license, but does not include a person who has only a learner's permit.

1. Assignment of Operators to Automobiles

- a. Each operator listed on the policy shall be assigned to an automobile on the policy based on the operator's class and Merit Rating Plan adjustment (based on the operator's Merit Rating Plan Operator Points) in a manner which produces the highest Combined Premium (the sum of the premium for Parts 1, 2, 4, 5, 7, 8, and 9 for the operator's class and Merit Rating Plan Operator Points) for each automobile. The operators shall be assigned in order of the highest Combined Premium applied to the automobile with highest Base Premium (the automobile's Class 10 premium for Parts 1, 2, 4, 5, 7, 8, and 9) until all operators are assigned to an automobile, except that:
 - i. If an inexperienced operator is the principal operator of a specific automobile, the automobile shall be rated with the appropriate inexperienced principal operator class and Merit Rating Plan Operator Points of that operator; and
 - ii. If an operator age 65 or over is the principal operator of a specific automobile and all operators listed on the policy have been licensed at least six years, the automobile shall be rated as Class 15 and that operator's Merit Rating Plan Operator Points shall be applied. However, if more than one listed operator is age 65 or over, Class 15 and the Merit Rating Plan Operator Points of such operators shall be applied in the manner which produces the highest Combined Premium.
 - iii. If an operator's class and Merit Rating Plan Operator Points are rated on an automobile covered by another Massachusetts private passenger insurance policy, that operator shall be deferred from rating on the policy (except where that operator will be considered as a factor in tiering). If all operators listed on a policy are Deferred Operators, the operator producing the lowest Combined Premium shall be assigned to the automobile(s).
 - iv. If only one operator is listed on the policy, all automobiles on the policy will be assigned the same principal operator classification and Merit Rating Plan Operator Points.

MASSACHUSETTS PRIVATE PASSENGER AUTOMOBILE INSURANCE MANUAL
PLYMOUTH ROCK ASSURANCE CORPORATION

v. If each listed operator has been used in rating an automobile on the policy, any remaining automobiles shall be assigned the operator class and Merit Rating Plan Operator Points which produces the lowest Combined Premium, unless the automobile is subject to rating as Class 30.

vi. If more than one operator is listed on the policy, an operator cannot be assigned as the principal operator of more than one automobile on the policy until the other operators (except Deferred Operators) are assigned to an automobile.

b. The assignment of operators to automobiles applies regardless of the number of policies or insurers involved.

c. An inexperienced operator in active military service with the Armed Forces of the United States of America shall not be considered an operator of the automobile unless such individual customarily operates the automobile.

d. Private passenger automobiles owned by clergy are to be classified as class 10 or 15 unless (a) Class 30 is required due to business use other than in connection with church use or (b) an inexperienced operator is listed on the policy.

2. Excluded Operator

If an operator who is a member of the household is to be excluded in rating a particular automobile to produce a lower premium charge, the policyholder must submit a signed statement that such operator does not and will not operate the automobile to be insured. The signed statement must be on the standard form approved by the Commissioner of Insurance, M-0106-S, Operator Exclusion Form.

If any operator excluded as a result of such signed statement operates the automobile, the appropriate operator classification premium for the full policy period may be charged unless a collision or limited collision claim has been denied in accordance with the provisions of the policy because the excluded operator was driving the automobile at the time of the accident.

3. Driving Experience

An operator new to Massachusetts must provide evidence of licensure from the state or country where the operator was previously licensed in order to assign the correct operator classification under this rule. If electronically available, the company will be responsible for obtaining the motor vehicle operator report from the other state or country. If necessary, a certified English translation may be required. No operator shall be assigned to Class 10 unless the operator has six or more years of driving experience.

The classification assigned to the operator is based on the number of years licensed in the other state or country and the completion of driver training, as established by the evidence of licensure. If no evidence of prior licensure is available, the operator may be assigned to Class 20 (inexperienced principal operator, licensed less than three years, no driver training) or Class 21 (inexperienced occasional operator, licensed less than three years, no driver training). The Massachusetts driving experience will be used thereafter to assign the operator classification.

4. Operators

Operators will be classified by the amount of use of an insured automobile:

- Principal Operator – a person who has an operator's license and operates the insured automobile more than any other listed operator as determined by the percentage of use of the automobile.
- Occasional Operator – a person who has an operator's license and operates the insured automobile less than the principal operator.

3. Develop the revised rating symbol by adding the value of the customized equipment to the value of the vehicle as determined in Item 2.
3. Develop the premium according to the rating symbol determined in Item 3 and the model year indicated in the rate section.

B. Non-Symbolled Pick-Up or Van

1. Determine the FOB List Price or Purchase Price, whichever is higher, and include the value of the customized equipment.
2. Based on the price developed in Item 1, refer to Rule 22 to determine the symbol.
3. Develop the premium according to the symbol determined in Item 2 and the model year indicated in the rate section.

The premium is then calculated in accordance with Rule 11.

RULE 48. ORIGINAL EQUIPMENT MANUFACTURER PARTS COVERAGE

5. General

Stickers identifying the particular anti-theft system installed may not be attached to the car unless specifically permitted in these rules.

If two or more qualifying devices are attached to a vehicle, the total discount shall be that applicable to the device meeting standards for the highest discount. If one of the qualifying devices is a Category IV device, the applicable discount shall be calculated as stated in Item 4. Discounts Applicable.

Insurers may require reasonable evidence of installation of any anti-theft device but may not refuse to grant a discount to a qualifying device solely on the grounds that it was installed by the owner of the auto.

Categories Defined

Category I

Devices qualifying in this category receive 5% discounts.

(a) Ignition or Starter Cut-Off Switch in Combination with Flush or Tapered Door Lock Buttons

This device is an ignition cut-off switch (sometimes called a “kill switch”) or a starter cut-off switch which is inserted into the ignition wiring of an auto. The switch is tripped upon leaving the auto and must be switched back in order to start the auto.

The switch must be installed so that it is not visible from the driver’s position when the driver is seated. In addition, the vehicle must contain flush or tapered door lock buttons on all doors.

A sticker may identify the presence of this system.

(b) Ignition or Starter Cut-Off Switches

Such ignition or starter cut-of switches either must be designed so that the wires leading from the switch to the engine compartment are protected by armored tubing or cable, or operate passively.

(c) Non-Passive, Externally-Operated Alarm

This is a non-passive warning alarm which is installed in an auto and can be set to go off if any door, the trunk or the hood is opened without first turning off the alarm by use of a key inserted in a lock mounted on the outside of the auto.

(d) Internally-Operated Alarm Not Meeting Category II or Category III Criteria

This is an alarm system which is activated from within the vehicle but which does not meet all the criteria found in Section (5.3) (a) or Section (5.4)(a); alarm must be triggered by entry of doors, hood or trunk.

(e) Steering Column Armored Collar

This is a device similar to an oversized padlock which clamps on the steering column over the ignition lock and prevents access to it. This device, upon being locked, prevents the vehicle from being started, or if the auto is hot-wired and started, the device prevents it from being steered. No part of the device, when not in operation, is attached to the steering column. A sticker may identify the presence of this device.

(f) Steering Wheel Removal Lock

This device prevents steering movement of the vehicle from a parked position. This is a high security steering wheel lock assembly manufactured of hardened steel components, which allows removal of the steering wheel from the vehicle. The assembly is permanently attached to the vehicle’s steering column and is located between the column and the steering wheel. Operation of the lock is controlled by a high security configured key. Unlocking the assembly will permit removal of the steering wheel from the vehicle. A fitted security plate is then inserted onto the lock assembly in place of the steering wheel and the lock’s security key is then removed. Re-attachment of the steering wheel onto the lock assembly requires use of the security key to first remove the fitted security plate and then to attach the steering wheel. The security key can be removed from the lock assembly only after either the security plate or steering wheel have been locked into place.

Category II

Devices qualifying in this category receive 15% discounts.

(a) Internally-Operated Alarm Systems Not Meeting Category III Criteria

This is an alarm system which is activated from within the auto but which does not meet all the criteria in Section (5.4)(a). The ignition must be automatically cut off, or the starter must be disconnected automatically. The alarm must be triggered by entry of doors, hood or trunk.

(b) Non-Passive Fuel Cut-Off Device

This is a shut-off device which operates to block the fuel line when a switch is tripped or when the device is engaged by a key. The switch to open or shut off the fuel line must be well hidden from view.

(c) Non-Passive Steering Wheel Lock

This device prevents the steering wheel from turning. A steel collar and barrel, into which the shackle of a lock fits, are permanently attached to the steering post. The shackle, made of case-hardened alloy steel, fits over the

steering wheel spoke and into the barrel. A tubular key operates the lock. The collar, barrel and shackle must resist cutting with a file. A sticker may identify the presence of this system.

(d) Armored Cable Hood Lock and Ignition Cut-Off Switch

This system is one which meets all the criteria of Section (5.4)(f)(1) except paragraph (a). Armor must be similar to that used in outdoor telephone booths; it must extend through firewall and be secured so as to prevent retraction.

(e) Window Identification System

A window identification is one in which identification letters and/or numbers are etched by sandblasting, chemical process or other permanent marking into all the windows of the vehicle other than the small vent window.

Provision must be made for immediate telephone identification of the owner of the vehicle any time of day or night.

A sticker may identify the presence of this identification system.

(f) Emergency Handbrake Lock

This device prevents the release of the emergency handbrake. The lock replaces the handbrake grip, and is permanently attached to the handbrake lever. The lock encasement must be all metal construction. The lock is released by entering a preset digital combination. A sticker may identify the presence of this device.

(g) Car Transmission Lock

The device prevents the vehicle from moving from a parked position by locking the gear shift. A steel encased lock is permanently attached to the floor of the vehicle by a steel stand. The shackle, made of case hardened alloy steel, fits around the gear shift and is inserted into the lock. The device must have a high security locking system with at least 50,000 combinations. The lock, shackle and stand must resist cutting and filing.

A sticker may identify this system.

Category III

Devices qualifying in this category receive 20% discounts.

(a) Passive Alarm System - This is an alarm system meeting the following criteria:

- (1) Ignition must be cut off automatically, or starter must be disabled automatically.
- (2) Alarm must be triggered by entry of doors, hood or trunk.
- (3) Hood must not open unless unlocked from inside the vehicle by a key, or by an electronic keyless device.
- (4) Alarm must sound for no more than eight minutes, and upon ceasing to sound, must reset itself.
- (5) Alarm must not emit a pulsating, whooping, or yelping sound which would cause it to be mistaken for the modern police, fire or other emergency vehicle siren.
- (6) Alarm must be installed in the engine compartment so as to be inaccessible without opening the hood.
- (7) The system must be engaged passively by turning the ignition key to the off position. To disarm the system a tubular lock or electronic keyless device must be used. The maximum time delay permitted to disarm the system after re-entry is twenty seconds.

(b) Passive Fuel Cut-Off Device

This fuel cut-off device is engaged by turning the ignition key to the off position. The driver must trip a switch to open the fuel line each time the car is started. This device must meet the following criteria:

- (1) The fuel line must be blocked when the power is off.
- (2) The switch to open the fuel line must be well hidden from view, but accessible to the driver from the driver's seat. In the alternative a tubular key or an electronic keyless device may be used.
- (3) A parking/service attendant override switch may be provided. It must be well hidden from view. It must not be accessible from the passenger compartment; alternatively, if the override switch is accessible from

the passenger compartment, a warning buzzer must sound (or the operator must be distracted in some other way) while the engine is running and the override switch engaged. If the buzzer is disconnected, it must result in disconnection of the entire anti-theft system.

(4) Any under-the-dash wiring installed in connection with this device must blend in color with factory-installed wiring.

(c) Armored Ignition Cut-Off Switch

This device is a kill switch designed to resist tampering. To prevent hot-wiring of the auto, a protective cap is attached to the coil or starter solenoid. Such devices must meet the following criteria:

(1) Armored cable must run from a separate key to the coil, starter solenoid, or other engine component. Such cable must be similar to that used in outdoor telephone booths, collapse when cut, and preclude quick reconnection of the cut wire inside; alternatively, some other effective means of preventing defeat of the system by cutting the armored cable must be employed.

(2) The device must prevent hot-wiring of the car.

(3) A separate lock must be of tubular type and must be installed inside the auto so as to facilitate use by the driver; alternatively, an electronic keyless device may be used in lieu of a lock if it does not take significantly longer to engage the device than it takes to remove a key from a lock, and use of the system is otherwise facilitated.

(d) Passive Multi-Component Cut-Off Switch

This device is a kill switch activated when the ignition key is turned to the off position. It is designed to prevent hot-wiring of the auto. Such device must meet the following criteria:

(1) The primary wire to the ignition coil must be disconnected.

(2) The device must disconnect the starter.

(3) One or more wires to the electronic ignition system, or to the points and condenser must be disconnected and grounded to the chassis.

(4) The wiring must blend with factory-installed wiring, and the disconnecting/grounding wires must be routed to random points in the electrical system away from the components they affect.

(5) The control module, if separate from the electronic locking mechanism, must be hidden in the engine compartment or other part of the car so that it is not easily detectable.

(6) In order to start the car, a lock or electronic device must be used to deactivate the system. The lock must be of tubular type and must be installed inside the auto so as to facilitate use by the driver; alternatively, an electronic keyless device may be used in lieu of a lock if it does not take significantly longer to engage the device than it takes to remove a key from a lock, and use of the system is otherwise facilitated.

(e) Passive Time Delay Ignition System

This is a device which allows the car to start only if the operator waits a prescribed time, which must vary from device to device in a range of three to twenty seconds, before moving the ignition key from "On" to "Start". If the auto does not start, the operator must be required to wait at least ninety seconds before the device can be operated successfully on a subsequent try.

The device must be resistant to tampering; for example, if it is forcibly removed, reconnection of the electrical system must not be possible with a hot-wire device. Alternatively, the device must be installed with a hood lock operated by a tubular key.

(f) Armored Cable or Electrically Operated Hood Lock and Ignition Cut-Off Switch

This is a supplemental hood lock operated from within the auto which also cuts off the ignition when engaged. Such devices must meet the following criteria:

(1) Armored Cable Hood Lock

(a) The hood lock cable must be armored by case hardened solid steel tubing designed to resist cutting; tubing must extend through firewall and be secured so as to prevent retraction. Otherwise, an alarm meeting the criteria of Section (5.3)(a) must be installed.

(b) The system must be engaged by a push button or other device which facilitates use. The push button or other device must be installed within reach of driver when seated.

(c) No portion of the hood lock cable may be accessible so that it could be grasped from underneath the car; and, if accessible through the grillwork, armor must extend to the locking mechanism.

(2) Electrically Operated Hood Lock

(a) The hood lock is electrically operated and functions so that it remains locked even if the wiring operating the hood lock is cut.

(b) The system must be engaged passively by turning the ignition key to the off position. To disarm the system a separate key or electronic keyless device must be used.

(c) If the hood lock can be reached through the grillwork or from underneath the car, the hood lock must be shielded or armored so that it cannot be manually operated. The locks controlling the devices must be of tubular type or operate electronically.

(g) Passive, Delayed Ignition Cut-Off System

This electronic system disables the ignition circuit at a preset engine speed such that the engine cannot be restarted or hot-wired. Such device must meet these criteria:

(1) The ignition must cut off automatically as soon as the engine reaches a speed in the range of 1,500 to 2,000 RPM.

(2) The system must be automatically armed when the ignition key is turned to the off position.

(3) A push button or other type of disarm switch must be well hidden from view. The wiring must blend with factory-installed wiring if placed under the dash. In the alternative, a tubular key or an electronic keyless device may be used.

(4) An alarm or horn shall be actuated at the same time the ignition is disabled.

(5) If a parking/service attendant switch is provided, a buzzer must sound all the time the engine is running. The switch must be hidden in a remote place.

(h) Passive Ignition Lock Protective system

This is a case hardened steel, protective cap which fits over the ignition lock so as to prevent extraction of the ignition lock cylinder. The cap fastens to a steel collar which fits around the steering post and over the ignition lock. The ignition key fits through a slot in the cap.

A sticker may identify the presence of this system.

(i) High Security Ignition Replacement Lock

This is a high security, case hardened steering column ignition lock, conforming to NHTSA Standard No. 1141, which cannot be removed using a conventional slide hammer or lock puller equipment.

A sticker may identify the presence of this system.

(j) Hydraulic Brake Lock

This is a dash-mounted device which, when activated and pressurized with the brake pedal, maintains hydraulic pressure on the brakes at two or more of a vehicle's wheels so that the vehicle cannot be driven. The device must have a high security locking system with at least 50,000 combinations and a lock which cannot be pulled using a conventional slide hammer or lock puller equipment.

Category IV

Devices qualifying in this category receive 20% discounts.

Vehicle Recovery System

This is an electronic unit installed in a vehicle that is activated after that vehicle is stolen. When activated, the device provides information to law enforcement officials or another public or private entity regarding the vehicle's location.

The system provides for the routine delivery of the information to the appropriate law enforcement organization to assist in the recovery of the vehicle.

Category V

Devices qualifying in this category receive 25% discounts.

Vehicle Recovery System with Unauthorized Movement Notification

This is an electronic unit installed in a vehicle that is activated after that vehicle is moved without authorization. When activated, the device provides information to law enforcement officials or another public or private entity regarding the vehicle's location. The system provides for the routine delivery of the information to the appropriate law enforcement organization to assist in the recovery of the vehicle. Additionally, the device must provide personalized notification to the owner of a vehicle (or his or her authorized user) in the event of a potentially unauthorized movement of the owner's vehicle. Personalized notification shall mean notification delivered directly to the owner or his or her authorized user via automated communication, which is available beyond the proximity of the vehicle itself, to one or more devices designated in advance by the owner or his or her authorized user, such as to the owner's home telephone, mobile phone, electronic mail service, or wireless text messaging service. If maintaining the system in effect requires the payment of a service fee, insureds must provide the insurer reasonable confirmation of the coverage.

RULE 55. PRE-INSURANCE INSPECTION PROGRAM

The Commissioner of Insurance promulgated regulation 211 CMR 94.00, Pre-Insurance Inspection of Private Passenger Motor Vehicles, to be effective July 24, 2009. For specific details about the Program, refer to the regulation.

The provisions of this Rule 55 shall be applied uniformly and without regard to whether the applicable motor vehicle is to be insured under a policy that was written on a voluntary basis or is to be insured under a policy that was assigned to the company by the Massachusetts Automobile Insurance Plan.

Eligibility

Unless specifically exempted or waived, all private passenger motor vehicles and pick-ups or vans having a gross vehicle weight up to 10,000 pounds are required to be inspected by an insurer prior to the issuance of physical damage coverages by the insurer.

Exemptions to Inspection Requirement

An inspection shall not be required if:

1. The motor vehicle is a new, unused motor vehicle from a franchised automobile dealership where the insurer is provided with either: a copy of the bill of sale which contains a full description of the motor vehicle, including all options and accessories; or a copy of the RMV Form 1 provided by the Registry of Motor Vehicles, which establishes the transfer of ownership from the dealer to the customer and a copy of the window sticker or the dealer invoice showing the itemized options and equipment in addition to the total retail price of the vehicle.
2. The applicant has been insured for three years or longer, without interruption, under a motor vehicle liability policy or policies which include(s) physical damage coverage, issued by the insurer to which the application is submitted; or any applicant involuntarily transferred to another insurer due to the applicant's original insurer's withdrawal from the Commonwealth if the applicant otherwise qualifies under this regulation.
3. An inspection is waived by the insurer.
4. Any private passenger motor vehicle not owned by the applicant, which is used by the applicant, with the permission of the owner, as a temporary substitute due to breakdown, repair, servicing, loss or destruction of the applicant's own motor vehicle.
5. A motor vehicle which is leased less than six months, provided the insurer receives the lease or rental agreement containing a description of the leased motor vehicle, including its condition.
6. When requiring an inspection would cause a serious hardship to the insurer or the applicant and such hardship is documented in the applicant's policy record.
7. When the insurer has no inspection facility or authorized representative either in the city or town in which the motor vehicle is principally garaged or within five miles of said city or town.

Waiver of Inspection

An inspection may be waived if:

1. The motor vehicle is ten or more model years older for all policies issued or renewed during the current calendar year.

Example: For policies issued or renewed during calendar year 2005, inspection of all 1995 and older model year vehicles may be waived.
2. A non-owned vehicle is insured under a policy providing physical damage coverage issued by an insurer which has inspected such motor vehicle in accordance with the provisions of this regulation.
3. A producer is transferring a book of business from one insurer to one or more insurers.
4. An individual applicant's coverage is being transferred by an independent insurance producer to a new insurer and said producer provides the new insurer with a copy of the inspection report completed on behalf of the previous insurer, provided the independent producer represents both insurers, and the insured vehicle was physically inspected by the previous insurer. However, if the new insurer does not receive a copy of the inspection report sixty days prior to the first annual date, the insurer must, upon renewal of the physical damage insurance, require an inspection.
5. When a motor vehicle is insured for physical damage on the applicant's expiring Massachusetts Automobile Insurance Policy, or when a copy of a prior Pre-insurance Inspection is provided.
6. When the applicant has been a customer of the producer for at least three years under a Massachusetts Automobile insurance Policy which included physical damage coverage.
7. When the applicant had physical damage coverage on the vehicle on the prior policy term with no lapse in coverage

Deferral of Inspection

An insurer may defer an inspection for ten calendar days (not including legal holidays and Sundays) following the effective date of coverage on new business and on additional or replacement vehicles to an existing policy, if an inspection at the time of the request for coverage would create a serious inconvenience for the applicant.

Whenever an inspection is deferred, the Notice of Mandatory Pre-Insurance Inspection Requirement (Form B) or the Acknowledgment of Requirement for Pre-Insurance Inspection (Form D) must be used in accordance with the Regulation.

If an inspection is not conducted within the ten day deferral period, physical damage coverage is automatically suspended on the day following the ten day deferral period.

Coverage may be reinstated to be effective at the time of inspection or, in accordance with the Regulation, the Notice of Suspension of Physical Damage Coverage (Form C) must be used.

Inspection Procedures

Inspections required or permitted shall be made by a designated authorized representative of the insurer at a time and place reasonably convenient to the applicant.

The inspection shall be recorded on the prescribed Motor Vehicle Pre-Insurance Inspection Report (Form A) and include appropriate photos as required under the Regulation.

The insurer must retain the original report and photographs for three years except as provided by the Regulation.

The insurers shall maintain an up-to-date list of all its authorized representatives and inspection sites.

RULE 56. MERIT RATING PLAN

The following summary is a general overview of the Merit Rating Plan and its impact on underlying rates.

Operator Points/Experience Period

Each listed operator on a policy is assigned an Operator Adjustment Factor based on the operator's driving history record, as per the Merit Rating Board. The Operator Adjustment Factor is the factor applied to the otherwise applicable rate which reflects the number, type, and age of incidents during the Policy Experience Period. The Factor is either the Excellent Driver Factor, awarded to operators with Incident-Free Periods of more than five but less than six years, the Excellent Driver Plus Factor, awarded to operators with Incident-Free Periods of at least six years, or

the factor corresponding to the number of points determined for the driver. The Experience Period is the six year period immediately preceding the effective date of the policy. The operator points will range from 0 to 45. The Merit Rating Board will compute and report to the Insurer the total number of operator points for each listed operator.

Accident Forgiveness

Accidents used in the computation of the Operator Adjustment Factor will not include those that have been forgiven, consistent with Rule 37 – Accident Forgiveness.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator's Policy Experience Period will begin as of the effective date of that policy until the company receives an authorized inquiry response from the Merit Rating Board indicating the operator's driving history record.

If an operator's Motor Vehicle Report (MVR) is electronically available, the company will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVRs obtained from more than one state or country must be combined by the company and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, the company must submit an Merit Rating policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's MVR with motor vehicle violations or at-fault accidents must be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's points.

If an MVR is not electronically available, the operator's Policy Experience Period will begin as of the effective date of the policy until the company receives an authorized inquiry response from the Merit Rating Board with the operator's actual operator points. The operator may obtain an official driving record or a record from a previous insurer and submit it to the company. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to the company. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator's record, the company must submit a Merit Rating policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's record with motor vehicle violations or at-fault accidents must be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's points.

Classification of Operator points

Merit Rating Plan Operator Points are assigned as follows:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

A claim payment for Bodily Injury Liability, Damage to Someone Else's Property, Collision or Limited Collision of at least \$500 and up to \$2,000 constitutes a minor at-fault accident. A claim payment of more than \$2,000 constitutes a major at-fault accident. An "at-fault" accident is one in which the company determines that the listed operator is more than 50% at fault.

Operator points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation or if it occurs in the sixth (oldest) year in the operator's six year Policy Experience Period.

Calculation of Premium Adjustment

The Merit Rating Plan adjustment factor is applied to Compulsory Bodily Injury (Part 1), PIP (Part 2), Property Damage (Part 4), Optional Bodily Injury (Part 5), Collision (Part 7) and Comprehensive (Part 9).

The adjustment factor varies based on the coverages to which it is applied as well as on the operator's years of driving experience and points. The Merit Rating adjustment factors are shown in the Rate Pages section.

Total Merit Rating Plan Operator points are based on the Incident Free Period. When the Incident Free Period is less than or equal to three, the total number of Operator Points applicable to the operator shall be the sum of the operator points identified for each Incident in the Policy Experience Period. When the Incident Free Period is greater than three and the total number of Incidents in the most recent five years of the Policy Experience Period is three or less, the Operator Points applicable to each incident shall be reduced by one and the total number of Operator Points applicable to the Operator shall be the sum of those reduced Operator points. In no event shall the Operator points for any single incident be reduced below zero.

Assignment of Operators to Vehicles

The assignment of operators to vehicles is made in accordance with the provisions of Rule 28.

RULE 57. SURETY BOND RULES AND RATES

1. The rates for Motor Vehicle Surety Bonds shall be 10% of the Statutory (Compulsory) Rates for Motor Vehicle Liability Insurance Policies.
2. No Motor Vehicle Surety Bonds shall be issued unless or until the applicant (owner) has furnished collateral equal to at least 120% of the highest amount of losses incurred in any one year of the most recent five-year experience period. If the experience is not available for the five preceding years, the applicant must satisfy the company that he is able to pay any judgment to the extent of \$40,000 for each motor vehicle to be covered. The minimum premium for a motor vehicle liability bond for Statutory (Compulsory) coverage shall be \$25.
3. The classifications for Motor Vehicle Surety Bonds shall be the same as for Motor Vehicle Liability Insurance Policies.
4. Motor Vehicle Liability Bonds executed on and after January 1, 1971, shall contain, as part of the recitals required by G.L. Chapter 90, Section 34A, the appropriate provisions of St. 1970, Chapter 670, Section 2 and St. 1971, Chapter 978. The term "insurer" as used in these statutes shall include the "obligor" under any Motor Vehicle Liability Bond so executed.

B. Collision and Limited Collision Rating Procedures

1. Determine the Actual Cash Value premium for the latest model year shown in the Rate pages for the vehicle symbol developed from Rule 22 for the appropriate territory, class and deductible. Divide the Actual Cash Value premium by the Stated Amount Divisor shown below. Round the result to the nearest cent. For Symbol 18 and above, use the Symbol 17 Actual Cash Value premium and divisor.
2. Apply the above rate to each \$100 of insured value to determine the stated amount premium.

Earning Credits

First Term

If this policy has never had this or any deductible dollars endorsement, **your** earned credit is \$50 as of the effective date of this endorsement.

Subsequent Terms

If this policy previously had this or any deductible dollars endorsement, **your** earned credit is shown on the Coverage Selections Page. **Your** earned credit includes any credit that this policy earned in prior terms that **you** did not use or lose. When this policy term expires, **you** will earn a \$50 credit if **you** have not had a covered **collision** claim during the twelve months ending on the Date of Issue of the original Coverage Selections Page for this policy term and have kept this endorsement on **your** policy. The \$50 credit will be added to **your** other earned credits, if any.

Losing Credits

You must keep this endorsement on **your** policy at all times to maintain **your** credits. **You** will forfeit any previously earned credits if and when **you** no longer have this endorsement on this policy.

Using Credits

We will only apply **your** earned credit if **you** have a covered **collision** claim during the term of this policy under Collision (Part 7) or Limited Collision (Part 8). **We** will do so only if the amount of **your** loss exceeds the amount of **your collision** deductible (as shown on the Coverage Selections Page). **We** will apply up to \$250 of **your** earned credit to reduce and offset the amount that **you** would otherwise be required to pay toward satisfying **your collision** deductible. **We** will subtract from **your** earned credit the amount that **you** use to satisfy **your** deductible. **Our** reasonable, good faith determination of the amount of **your** earned credit and how and when it may be used to satisfy **your** deductible shall be final and binding.

2. Accidental Discharge of Airbag Coverage

We will pay up to \$500 for the cost to repair or replace a safety airbag in **your auto** that accidentally discharges. No deductible applies to this coverage. **You** may be entitled by other insurance or warranty to receive the cost to repair or replace the airbag. If so, **we** will pay only the cost up to \$500 not covered by the other insurance or warranty.

3. Additional Towing and Labor Coverage

We will pay up to \$50 per disablement in addition to any limit shown on **your** Coverage Selections Page for Towing and Labor (Part 11) for which a premium is paid. All other provisions of Towing and Labor (Part 11) apply.

4. Waiver of Depreciation

We will waive any deduction up to \$2,000 for depreciation for the repair or replacement of any parts of **your auto** that are damaged in a covered loss. This coverage applies to Collision (Part 7), Limited Collision (Part 8) and Comprehensive (Part 9). All other provisions of Collision (Part 7), Limited Collision (Part 8) and Comprehensive (Part 9) apply.

Terms and Conditions

We reserve the right to change or discontinue this endorsement or any of its programs upon renewal of this policy.
