RULE 28. PRIVATE PASSENGER CLASSIFICATIONS

A. Operators

All operators of the insured automobiles must be listed on the Coverage Selections Page of the Policy. An operator is a person who has an operator’s license, but does not include a person who has only a learner’s permit.

1. Assignment of Operators to Automobiles

   a. Each operator listed on the policy shall be assigned to an automobile on the policy based on the operator’s class and Safe Driver Insurance Plan credits or surcharges (SDIP points) in a manner which produces the highest Combined Premium (the sum of the premium for Parts 1, 2, 4, 5, 7, 8, and 9 for the operator’s class and the operator’s SDIP points) for each automobile. The operators shall be assigned in order of the highest Combined Premium applied to the automobile with highest Base Premium (the automobile’s Class 10 premium for Parts 1, 2, 4, 5, 7, 8, and 9) until all operators are assigned to an automobile, except that:

      i. If an inexperienced operator is the principal operator of a specific automobile, the automobile shall be rated with the appropriate inexperienced principal operator class and SDIP points of that operator; and

      ii. If an operator age 65 or over is the principal operator of a specific automobile and all operators listed on the policy have been licensed at least six years, the automobile shall be rated as Class 15 and that operator’s SDIP points shall be applied. However, if more than one listed operator is age 65 or over, Class 15 and the SDIP points of such operators shall be applied in the manner which produces the highest Combined Premium.

      iii. If an operator’s class and SDIP points are rated on an automobile covered by another Massachusetts private passenger insurance policy, that operator shall be deferred from rating on the policy (Deferred Operator). If all operators listed on a policy are Deferred Operators, the operator producing the lowest Combined Premium shall be assigned to the automobile(s).

      iv. If only one operator is listed on the policy, all automobiles on the policy will be assigned the same principal operator classification and SDIP points.

      v. If each listed operator has been used in rating an automobile on the policy, any remaining automobiles shall be assigned the operator class and SDIP points which produces the lowest Combined Premium, unless the automobile is subject to rating as Class 30.

      vi. If more than one operator is listed on the policy, an operator cannot be assigned as the principal operator of more than one automobile on the policy until the other operators (except Deferred Operators) are assigned to an automobile.

   b. The assignment of operators to automobiles applies regardless of the number of policies or insurers involved.

   c. An inexperienced operator in active military service with the Armed Forces of the United States of America shall not be considered an operator of the automobile unless such individual customarily operates the automobile.
d. Private passenger automobiles owned by clergy are to be classified as class 10 or 15 unless (a) Class 30 is required due to business use other than in connection with church use or (b) an inexperienced operator is listed on the policy.

2. Excluded Operator

If an operator who is a member of the household is to be excluded in rating a particular automobile to produce a lower premium charge, the policyholder must submit a signed statement that such operator does not and will not operate the automobile to be insured. The signed statement must be on the standard form approved by the Commissioner of Insurance, M-0106-S, Operator Exclusion Form.

If any operator excluded as a result of such signed statement operates the automobile, the appropriate operator classification premium for the full policy period may be charged unless a collision or limited collision claim has been denied in accordance with the provisions of the policy because the excluded operator was driving the automobile at the time of the accident.

3. Driving Experience

An operator new to Massachusetts must provide evidence of licensure from the state or country where the operator was previously licensed in order to assign the correct operator classification under this rule. If electronically available, the company will be responsible for obtaining the motor vehicle operator report from the other state or country. If necessary, a certified English translation may be required. No operator shall be assigned to Class 10 unless the operator has six or more years of driving experience.

The classification assigned to the operator is based on the number of years licensed in the other state or country and the completion of driver training, as established by the evidence of licensure. If no evidence of prior licensure is available, the operator may be assigned to Class 20 (inexperienced principal operator, licensed less than three years, no driver training) or Class 21 (inexperienced occasional operator, licensed less than three years, no driver training). The Massachusetts driving experience will be used thereafter to assign the operator classification.

4. Operators

Operators will be classified by the amount of use of an insured automobile:

- Principal Operator – a person who has an operator’s license and operates the insured automobile more than any other listed operator as determined by the percentage of use of the automobile.

- Occasional Operator – a person who has an operator’s license and operates the insured automobile less than the principal operator.
