October 14, 2022

Moped Expiration Decal Change

Moped registrations/plates are valid for two years and expire on the last day of March. Currently, moped expiration decals are issued with the format MONTH YEAR (example: MAR 23, MAR 24).

Beginning with moped registrations/plates expiring in March 2025, we are switching to the standard expiration decals that are used for other vehicles. This means that they will no longer include the month and will only show the year they expire.

This change will speed up the moped renewal process because we can use the current embedded stock to renew mopeds rather than the manual process used today.

Law enforcement has been notified of this change.
